(*b*) For import trade from the External blocks, except Native States, the values are calculated according to the rates furnishsd by the officers of the exporting provinces, in accordance with the Government of India orders contained in Circular No. $\frac{45}{35\text{-}26}$ Statistics, dated 9th May 1888, Department of Revenue and Agriculture.

(*c*) The value of cotton piece-goods, European, imported by railway from Bombay into the Province of Sind, is taken from the average rate, as no separate value rates for bales and boxes are shown in the price list of that Province.

15. There is a slight expansion amounting to maunds 13,13,254 or 12·04 per cent. in the volume of the import trade with the Punjab whereas a diminution in the value of Rs. 17,89,921 or 4·68 per cent., compared with the year 1893-94, when it amounted to maunds 1,09,04,354, value Rs. 3,82,58,559 against maunds 1,22,17,608, value Rs. 3,64,68,638 in the year under report. The increase is noticeable chiefly in Indigo, Wheat, Rice, Jowari and Bajri, Gram and Pulse, Grain, other sorts, Hides, raw, Linseed, Ghi, Silk Piece-goods, Indian, Tea, Indian, and Wool, raw. There is, however, a decline in Cotton, raw, Twist and Yarn, Indian, Aniline Dyes, Gunny bags, other metals, Oils, other sorts, Rape and Mustard, Til or Gingelly, other oil seeds, Dried fruits and nuts, Spices, other sorts, Sugar, unrefined and Tobacco manufactured, other sorts.

16. Imports from the North-western Provinces and Oudh declined from maunds 3,41,239, value Rs. 19,73,975 in the year 1893-94 to maunds 3,35,153, value Rs. 16,99,094 in 1894-95. The falling off of maunds 6,086 or 1·78 per cent., value Rs. 2,74,881 or 13·93 per cent., is observable principally in Drugs, other sorts, Rape and Mustard, Til or Gingelly, Ghi, Sugar, unrefined and Tea, Indian. The trade, however, improved in Piece-goods, Indian, Leather, manufactured, Linseed and Sugar, refined.

17. In imports from Rajputana and Central India, there is a decrease of maunds 843, or 81·84 per cent., value Rs. 11,272 or 76·16 per cent., in comparison with the year 1893-94, when they amounted to maunds 1,030, value Rs. 14,800, against maunds 187, value Rs. 3,528 in the past official year. The principal articles in which there is a decline are Gram and Pulse, Til or Gingelly Seed and Ghi. In Drugs, other sorts and Tea, Indian, there is an improvement.

18. There is a falling off in 1894-95 to the extent of maunds 3,21,697 or 10·01 per cent., value Rs. 5,91,943 or 1·72 per cent., in Exports to the Punjab,

contrasted with the previous year, when the figures were maunds 32,15,153, value Rs. 3,43,69,886 against maunds 28,93,456, value Rs. 3,37,77,943 in the year under review. The decrease is conspicuous in Twist and Yarn, Indian, Dyes, other sorts, Rice not in the husk, Jowari and Bajri, Wines, Copper, wrought, other metals, Oils, other sorts, Dried fruits and nuts, Pepper, Spices, other sorts, Sugar, refined, Tobacco, unmanufactured, and woollen Shawls. There is, however, an increase in Twist and Yarn, European, Cotton Piece-goods, European and Indian, Drugs, other sorts, Indigo, Turmeric, Aniline Dyes, Gunny bags, Leather manufactured, Beer, Spirits, Brass, wrought, Iron, Kerosine oil, Provision, other sorts, Locomotive Engines and Railway carriages and trucks.

19. The Export traffic with the North-western Provinces and Oudh amounted, during the year under report, to maunds 86,404, value Rs. 4,74,945 against maunds 1,37,677, value Rs. 6,87,922, in the year previous, being a depression of maunds 51,273 or 37·24 per cent., value Rs. 2,12,977 or 30·96 per cent., chiefly in Cotton Piece-goods, European, Beer, Wines, Copper, unwrought and Iron. In Lac, stick, Metals, other sorts and Kerosine oil the trade improved.

20. A very slight decrease, *viz.*, maunds 6 or ·91 per cent., value Rs. 435 or 9·88 per cent. is noticeable in Exports to Rajputana and Central India as compared with the year 1893-94. The trade fell from maunds 660, value Rs. 4,402 in 1893-94 to maunds 654, value Rs. 3,967 in the year 1894-95, principally in Cotton Piece-goods, European and Indian, Brass, wrought, Dried fruits and nuts and Woollen Piece-goods, Indian. There is, however, a rise in Twist and Yarn, European, Indigo and Provision, other sorts.

21. The trade with the other external blocks is too insignificant to call for any remark.

22. The undermentioned articles imported from both external and internal blocks exhibit an improvement as compared with the year 1893-94 :—

1. Indigo.
2. Rice not in the husk.
3. Hides, raw.
4. Linseed.
5. Til or Gingelly.
6. Tea, Indian.
7. Wool, raw.

23. A decrease is noticeable in the following :—

1. Cotton, raw.
2. Wheat.
3. Jowari and Bajri.
4. Grain, other sorts.
5. Gunny bags.
6. Oil, other sorts.
7. Rape and Mustard.
8. Other oilseeds.
9. Spices, other sorts.
10. Sugar, unrefined.

24. The rise in Indigo is ascribed to larger crop.

25. The improvement in rice not in the husk is due to favorable crops and better demand.

26. The increase in Hides, raw, and Wool, raw, is caused by a brisk demand for exportation.

27. The cause of the large increase in Tea, Indian, is not known at this moment.

28. The increase in Linseed is owing to large crop and good export demand.

29. The decrease in Cotton, raw, and Oilseeds, other sorts, is on account of scanty crop.

30. The falling off in Gunny bags is attributed to large old stocks held in hand.

31. The decline in Oil, other sorts, is due to slack demand from Europe.

32. The fall in Mustard and Rape has been brought about by failure of crops and strong demand for exportation from the Punjab to Oudh and Bengal.

33. The causes of decrease in Spices, other sorts, and Sugar, unrefined, are not known.

34. The rise and fall in other articles are owing to ordinary trade fluctuations.

EXPORTS.

35. The principal articles of the Export trade, with both external and internal blocks, which show an increase in comparison with the year 1893-94, are given below :—

1. Coal and Coke.
2. Twist and Yarn, European.
3. Piece-goods, European.
4. Aniline Dyes.
5. Iron.
6. Kerosine oil.
7. Provision, other sorts.
8. Silk Piece-goods, Foreign.
9. Stone and Lime.
10. Locomotive Engines.
11. Railway carriages.
12. Woollen Piece-goods, European.

36. In the following articles there is a decline :—

1. Cotton Piece-goods, Indian.
2. Dyes, other sorts.
3. Rice not in the husk.
4. Dried fruits and nuts.
5. Copper, wrought.
6. Sugar, refined.
7. Tobacco, unmanufactured.

37. The improvement in Cotton Piece-goods, European, is ascribed to a strong demand in the Upcountry Markets.

38. The increase in Iron and Kerosine oil is caused by larger demand for those articles.

39. The increase in Coal and Coke, Locomotive Engines and Railway carriages and Trucks is due entirely to Railway requirements.

40. The rise in Stone and Lime is accounted for by the construction of a large number of new buildings.

41. The falling off in Dyes, other sorts, is attributed to diminished demand.

41A. The increase in Woollen Piece-goods, European, is ascribed to the Punjab taking its supplies from Karachi instead of from Calcutta as hitherto.

42. The decrease in Cotton Piece-goods, Indian, is more than counterbalanced by the increased exports of European Piece-goods.

43. The fall in Rice not in the husk is owing to slack demand caused by cheap food-grains.

44. The decline in Sugar, refined, is consequent upon a smaller Upcountry demand for Beet Sugar.

45. The variations in other articles are due to ordinary fluctuations in trade.

46. The following statement exhibits the external trade with special reference to the internal blocks of the Province of Sind for the year 1894-95 contrasted with the year previous :—

Internal blocks.	Imports.				Exports.			
	1893-94.		1894-95.		1893-94.		1894-95.

The above statement shows that there is a slight increase of 2·05 per cent. in the proportion of trade of Karachi with the different external blocks, as compared with the year 1893-94. Under exports, however, it is 2·85 per cent. less.

47. The subjoined table prepared in accordance with Government of India letter No. 150/11-3, Statistics, dated 19th January 1891, embodied in Bombay Government Resolution No. 1277, dated 17th February 1891, Revenue Department, shows the principal commodities imported into Karachi by rail and river and exported by sea during the year under review :—

48. It will be observed from the above statement that the exports by sea of Cotton, raw, Mustard and Rape, Gingelly seed and Wool, raw, exceed the imports of those articles into Karachi by rail, river and sea. It is due to the existence of previous year's stocks. Exports of Wheat and Linseed are, however, less than Imports.

49. The following table shows in a contrasted form the share taken by Sind and the Punjab in the exportation of the principal articles by rail and river to the seaport town of Karachi during the years 1893-94 and 1894-95 :—

Articles.	Sind.				Punjab.

50. During the year under report, Sind contributed more in Cotton, raw, and Til or Gingelly seed, while Punjab supplied more Wheat, Mustard and Rape seeds and Wool, raw.

51. Compared with the year 1893-94, Sind despatched more Cotton, raw, Til or Gingelly seed and Wool, raw, but less Wheat and Mustard and Rape seeds.

52. This year Punjab supplied more Wheat and Wool, raw, but less Cotton, raw, Til or Gingelly, and Rape and Mustard seeds.

53. The subjoined statement compares the entire quantities of the internal or local trade carried on between the internal blocks of the Province of Sind during the years 1893-94 and 1894-95 :—

Internal blocks.	1893-94.		1894-95.

Total ...	9,481,554	9,481,554	7,242,373	7,242,373

54. There is a falling off to the extent of maunds 2,251,558 or 28·18 per cent., in Imports from Sind into Karachi, as compared with 1893-94 when they amounted to maunds 7,991,231 against maunds 57,39,673 in 1894-95. The decline is noticeable chiefly in Cotton, raw, Wheat, Jowari and Bajri, Gram and Pulse, Grain, other sorts, Skins, raw, Rape and Mustard, other oil seeds, Dried fruits and nuts, Locomotive Engines and Tenders, and other saline substances. A rise is noticeable in Cotton Piece-goods, Indian, Drugs, other sorts, Indigo, Hides, raw, Wines, Til or Gingelly seed, Ghi, Stone and Lime and Wool, raw.

55. Exports from Karachi to Sind advanced from maunds 1,490,323 in 1893-94 to maunds 1,502,700 in the past official year, being an improvement of maunds 12,377 or ·83 per cent., principally in Coal and Coke, Cotton, raw, Piece-goods, European, Aniline Dyes, Dyes, other sorts, Rice not in the husk, Leather manufactured, Spirits, Wines, Copper, unwrought, Metals, other sorts, Provision, other sorts, Locomotive Engines and Tenders, Railway Carriages and Trucks, Silk Piece-goods, Foreign, Betelnuts, Cardamoms, Sugar, refined and Woollen Piece-goods, both European and Indian. In Cotton Piece-goods, Indian, Gunny bags, Copper, wrought, Iron, Ghi, Dried fruits and nuts and Pepper, trade declined.

56. The following statement exhibits the net weight and value of the principal articles of River-borne trade that took the rail at Sukkur and Kotri during the year 1894-95 :—

57. It will be observed from the above Statement that nearly 25½ lakhs of maunds, value over a crore of Rupees, of river-borne traffic in the above-mentioned principal commodities, were imported into Karachi from Sukkur and Kotri by rail for exportation by sea.

58. The next table shows the river-borne traffic, carried both ways, between Keti Bandar and Sukkur and Kotri during the past official year :—

59. It will be seen from the above statement that over 9 (nine) thousand Rupees worth of Goods consisting of Wheat, Rice, Jowari and Bajri, other sorts of grain, Tobacco, Dyes, other sorts, Oils, other sorts, and sundries were imported from Sukkur and Kotri, while over 48 (forty-eight) thousand Rupees worth of Drugs and Chemicals, other sorts, and Sundries, manufactured, were exported to Sukkur and Kotri.

60. Of the re-export trade by sea from Karachi to Keti Bandar, as shown in the sea-borne trade report, only Paints and Sundries, valued at Rs. 4,400, were exported by river to Ferozepore.

61. The trade between Sind and the Punjab, by the River Indus, has been systematically registered and embodied in the Sind Returns from the official year 1890-91, in accordance with the Government of India instructions contained in their letter No. 518/57-3, Statistics, dated 5th June 1890, Department of Revenue and Agriculture. The quarterly returns of the trade between Sind and Karachi, by railway, are furnished by the Examiner of Accounts, North-western Railway, Lahore, and those of the traffic between Sind and the Punjab, by the river Indus, are supplied by the Assistant Conservator and Registrar, River Indus, Sukkur. The system of classification of the Indus traffic figures has been as follows :—

1. When the imports by river from the Punjab exceed the imports by rail from Sukkur and Kotri into Karachi, class the latter as imports from the Punjab into Karachi, and the difference as imports from the Punjab into Sind. Under trade between Sind and Karachi by rail, exclude the exports from Sukkur and Kotri to Karachi and enter the remainder.

2. When the imports by rail from Sukkur and Kotri into Karachi exceed the imports by river from the Punjab, class the latter as imports from the Punjab into Karachi, and the difference plus the imports from other stations in Sind to Karachi as trade between Sind and Karachi.

3. When the exports by rail from Karachi to Sukkur and Kotri exceed the exports by river to the Punjab, class the latter as exports from

Karachi to the Punjab, and the difference plus the exports from Karachi to Sind (excluding Sukkur and Kotri) as trade between Sind and Karachi.

4. When the exports by river to the Punjab exceed the exports by rail from Karachi to Sukkur and Kotri, class the latter as exports from Karachi to the Punjab, and the difference as exports from Sind to the Punjab. Under trade between Sind and Karachi by rail, exclude the exports from Karachi to Sukkur and Kotri, and enter the remainder.

62. Statements C and D attached, show the traffic between Sind and Karachi by railway, and that between Sind and the Punjab by the river Indus, respectively, during the year 1894-95.

2. The quantity and value of the total trade of 1894-95 compared with that of the previous year, and the average for the last 5 years, is shown in the margin. The volume of trade has declined by about 4 per cent. below last year but increased over the average by 12·82 per cent. The corresponding decrease and increase in value amounted respectively to 6·24 and 6·74 per cent. Decrease in the local trade is wholly responsible for the decline in the total trade during the year. The external trade of the Province is almost wholly with the Punjab (97 per cent).

3. The subjoined table shows the chief imports into and exports from the Province. Of the total imports, 90 per cent. as against 88 per cent. during the previous year, were received by the port of Karachi, almost all being receipts from the Punjab. Of the total exports 72 per cent., *i.e.* nearly the same as in the previous year, were from the port of Karachi. The proportion of the external trade of the Karachi port, although remained almost the same under exports, showed improvement by 14 per cent. under imports.

Imports.

4. Imports rose by 13 lakhs or 12 per cent. over the last year. The rise is chiefly noticeable in the importations of articles noted in the margin.

Wheat showed a marked increase, almost wholly due to larger imports from the Punjab where the excellent wheat harvest of 1893-94 was followed by an almost equally good one in 1894-95. The other noticeable increase was under millets, imports of which from the Punjab into the port of Karachi increased almost exactly in correspondence with the deficit in the imports from Sind into Karachi. Increase in other food grains was owing to greater imports probably received to supplement short local production, a result of unfavourable kharif season.

Among articles showing decrease in their imports, oil-seeds, chiefly rape and mustard (—461) and gingelly (—165 thousand maunds) appeared prominent. Though the unfavourable rape seed season of 1894-95 may have adversely influenced the free imports of these oil-seeds to a certain extent, the decrease noticed was accentuated by the very large imports of the previous year caused by abnormal demand for exports beyond sea. Cotton, raw, declined, the Punjab reducing its exports by 69,000 maunds. Unrefined sugar fell off by 47,000 maunds. Raw-sugar is mostly imported into Sind and this deficit is partly explained by large export of refined sugar from Karachi. Imports under Ghi from N.-W. P. and Oudh decreased by 9,000 maunds, but the decrease was to some extent counterbalanced by larger receipts from the Punjab.

Exports.

5. Exports, though the same as last year, were 8 per cent. higher than the average. As noticed in the previous report exports from Karachi, which mostly consist of Foreign Manufactures, bear a higher proportion to the total export trade of Sind, cotton piece-goods and yarn, metals, kerosine and stone and lime showing considerable increase. Stone and lime, which contributed 20 per cent. to the total exports, showed an increase of 135 per cent. owing to larger supply from Sind to the Punjab (+ 356,000 maunds) due to construction of a large number of new buildings in that Province. Metals come next which showed larger exports chiefly in iron taken up by the Punjab from the port of Karachi. Exports of kerosine increased by about 400,000 maunds one-fourth of which was traceable in the receipts by N.-W. Provinces and Oudh from Karachi, and the rest by the Punjab. Cotton goods exports, chiefly of piece-goods, European, improved owing to larger demand in the up-country markets. On the other hand exports under sugar, refined, dried fruits and nuts, coal and coke and spices declined. The exports of refined sugar to the Punjab fell off by 55,000 maunds. The Punjab seems to have shown preference for unrefined cane sugar over beet sugar, as it supplemented the shorter imports of refined sugar by curtailing the exports of locally produced unrefined sugar. Decrease in dried fruits and nuts was due to the shorter despatches to the Punjab. Decline in exports of other articles was owing to ordinary trade fluctuations.

Local Trade.

6. Unlike the previous year, the local trade during 1894-95 fell off by 24 per cent. below last year and 4 per cent. below average. Of the 70 lakhs maunds of trade the port of Karachi imported 56½ lakhs maunds and exported the rest. To the total receipts grain and pulse contributed 35½ lakhs of maunds or 37 per cent. less than in the previous year comprising wheat 2343, rice 568, millet 593 and grain and pulse 27 thousand maunds.

Imports of wheat into the port of Karachi decreased by 14⅘ lakhs of maunds due chiefly to smaller area sown with wheat owing to low inundations and deficiency of rain in 1893-94. The deficit in food grains other than wheat may be attributed to bad kharif crops owing to extensive floods. Receipts of hides of cattle improved by 4,000 maunds, while those of skins of sheep and goats (raw) declined by 38,000 maunds. Despatches from Karachi Port to Sind of (1) gunny bags and cloth and (2) of iron decreased respectively 27 and 16 thousand maunds. The fall under gunny was attributed to old stocks in hand but it may also be partly attributed to smaller trade in grain and oilseeds. Sesame exports from Sind to the Port of Karachi improved by 2¼ lakhs of maunds owing to favourable season for this crop, but those of rape and mustard and other oil-seeds fell off by 136 and 275 thousand maunds due chiefly to causes mentioned under imports above. Transactions in Provisions "others," improved by 16 thousand maunds. The Port of Karachi received larger supply of stone and lime (3½ lakhs maunds) and wool, raw (+ 15 thousand maunds), and sent off to Sind greater quantity of sugar, refined (+ 19 thousand maunds). Among other articles, Karachi exported to Sind large supply of (1) coal and coke (+ 63), (2) cotton piece-goods European (+ 14) and (3) twist and yarn, European (+ 3 thousand maunds), while it received larger importations under cotton, raw (+ 22), indigo (+4) and drugs, others (+ 24 thousand maunds). Piece-goods, Indian, fell off in favour of piece-goods, European.

7. The river-borne trade between Keti Bandar and Kotri and Sukkur rose from 6,522 maunds to 9,636 maunds or by 40 per cent. in volume during the year with the concurrent increase from Rs. 44,067 to Rs. 58,219 or 32 per cent. in value. The significant feature of this year's river-borne trade was that the imports from Sukkur, which had hitherto been nil, amounted to nearly three thousand maunds consisting mostly of food grains probably imported to supplement short local supplies as noticed under imports above.

8. The appended table compares statistics of imports into and exports abroad from the ports of Bombay and Karachi.

The exports of cotton from Bombay showed a considerable fall, while those from Karachi show improvement, though a small one. Under wheat the exports from Karachi show an insignificant fall while those from Bombay fell by 77 per cent. Thus, the port of Karachi has maintained the superiority over Bombay as a port of shipment, for wheat, especially from the Punjab. The absence of abnormal demand for rape and mustard noted above under imports naturally resulted in curtailment of exports. The exports of gingelly and wool, raw, show a small improvement. The excess of exports over imports under cotton, rape and mustard, gingelly and wool, raw, point to a surplus from the previous year.

Road-borne Traffic Registration.

9. The road-borne trade between the Native States of India and Sind has been reported for the first time. The trade was registered at the following five stations at the total cost of Rs. 330 during the year :—

Station.	Districts in which situated.
1 Ver	Karachi.
2 Nagar-Parkar	Thar and Parkar.
3 Godra	Do.
4 Baliari	Do.
5 Khipra	Do.

10. 92 per cent. of the road-borne trade was with Cutch. The principal items of imports were cotton, piece-goods (Indian), copper and brass and sesame; and those of exports were, besides cattle, ghi, rice, oils, gingelly and cotton, piece-goods, Indian.

REPORT ON THE RAIL AND RIVER-BORNE TRADE OF THE PROVINCE OF SIND FOR THE YEAR 1895-96.

—o—

This report deals with the Rail and River-borne trade of the Province of Sind for the official year 1895-96, and is based upon the Returns furnished by the officers named in paragraph 2. The Statements appended have been prepared in the usual form.

2. The arrangements for the registration of the trade remain as before. They are as follow :—

(*a*) The Examiner of Accounts, North-Western Railway, Lahore, registers the Import and Local or Internal trade.

(*b*) The Examiner of Guaranteed Railway Accounts, Bombay, the Examiner of Accounts, North-Western Railway, Lahore, the Examiner of Accounts, Oudh and Rohilkhand Railway, Lucknow, and the Assistant Auditor, East-Indian Railway, Jamalpur, register the Export trade.

(*c*) The Assistant Conservator and Registrar, River Indus, Sukkur, registers the Import and Export trade by the River Indus.

3. The Returns received from the above officers are consolidated in this office every quarter, and the trade is briefly reviewed. Printed copies of the Returns are then furnished to the Government of India, Local Governments and Administrations, &c., in accordance with the orders of the Government of Bombay contained in their No. 2129, dated the 24th March 1890.

4. The Internal blocks of the Province of Sind are the same as before, *viz*, (1) Karachi and (2) Sind, excluding Karachi.

5. The system of assigning values has not undergone any change, and is as follows :—

(*a*) The values of the Export and Local trade as well as those of the Import trade with the Native States are taken from the rates shown in Statement A attached, which is prepared from the quarterly Returns, and which exhibits the average rates for the whole year. These rates are obtained as follow :

The rates for foreign goods shown in the quarterly Returns are obtained from invoice values and are supplied by the Appraising Department of this Customs House, and those for Indian goods and for the Railway Plant and Rolling-stock, are furnished by the Director, Land Records and Agriculture, Bombay, in accordance with the Government of Bombay Resolution No. 7316, dated 15th October 1890, Revenue Department.

(*b*) For Import trade from the External blocks, except Native States, the values are calculated according to the rates furnished by the officers of the exporting provinces, in accordance with the Government of India orders contained in Circular No. $\frac{45}{35\text{-}26}$ Statistics, dated 9th May 1888, Department of Revenue and Agriculture.

(*c*) The value of Cotton Piece-goods, European, imported by railway from Bombay into the Province of Sind, is taken from the average rate, as no separate value rates for bales and boxes are shown in the price list of that Province.

(*d*) The value of Cotton Piece-goods, both European and Indian, carried by railway between Sind and Karachi, is also taken from the average of the rates for bales and boxes.

6. The trade has, as usual, been classed under two heads, *viz.*, (1) External and (2) Internal.

7. The first head consists of the trade with other Provinces, Native States and Chief Seaport Towns of India, which are :—

I.—British Provinces.

1. Madras.
2. Bombay.
3. Bengal.
4. North-Western Provinces and Oudh.
5. Panjab.
6. Central Provinces.
7. Berar.

II.—Native States.

1. Rajputana and Central India.
2. Nizam's Territory (Hyderabad).
3. Mysore.

III.—Chief Seaport Towns.

1. Madras Sea-ports.
2. Bombay.
3. Calcutta.

8. The second head includes the trade carried from one block to another within the Province of Sind.

9. In accordance with the instructions contained in Government of India letter No. $\frac{518}{57\text{-}3}$, Statistics, dated 5th June 1890, Department of Revenue and Agriculture, the traffic between Sind and the Panjab, by the River Indus, has been systematically registered and embodied in the Sind Returns from the official year 1890-91. As noticed in previous reports, the quarterly Returns of the Rail-borne traffic between Sind and Karachi are supplied by the Examiner of Accounts, North-Western Railway, Lahore, and those of the River-borne trade between Sind and the Panjab are furnished by the Assistant Conservator and Registrar, River Indus, Sukkur. The Indus traffic figures have, as hitherto, been classified according to the following rules, contained in paragraph 5 of the above letter :—

I. When imports by river from the Panjab exceed the imports by rail from Sukkur and Kotri into Karachi, class the latter as imports from the Panjab into Karachi, and the difference as imports from the Panjab into Sind. Under trade between Sind and Karachi by rail, exclude the exports from Sukkur and Kotri to Karachi and enter the remainder.

II. When the imports by rail from Sukkur and Kotri into Karachi exceed the imports by river from the Panjab, class the latter as imports from the Panjab into Karachi, and the difference *plus* the imports from other stations in Sind to Karachi as trade between Sind and Karachi.

III. When the exports by rail from Karachi to Sukkur and Kotri exceed the exports by river to the Panjab, class the latter as exports from Karachi to the Panjab, and the difference *plus* the exports from Karachi to Sind (excluding Sukkur and Kotri) as trade between Sind and Karachi.

IV. When the exports by river to the Panjab exceed the exports by rail from Karachi to Sukkur and Kotri, class the latter as exports from Karachi to the Panjab, and the difference as exports from Sind to the Panjab. Under trade between Sind and Karachi by rail, exclude the exports from Karachi to Sukkur and Kotri, and enter the remainder.

10. The traffic between Karachi and Sind by railway and that between Sind and the Panjab by the River Indus during the year 1895-96 have been shown in the Statements II-C and III-D, respectively.

11. The following changes in the rates of Railway freight have, as noted in the quarterly Returns, been reported during the year under review by the Examiner of Accounts, North-Western Railway, Lahore :—

13. It will be observed from the above statement that there is a decrease of maunds 1,790,293, or 14·26 per cent., in the quantity and an increase of Rs. 40,05,598, or 10·45 per cent., in the value of the Imports from the External blocks. They aggregated during the year under report maunds 10,764,339, value Rs. 4,23,23,507, against maunds 12,554,632, value Rs. 3,83,17,909, in the previous year.

14. The Export trade with the External blocks increased by maunds 573,383, or 19·23 per cent., value Rs. 37,82,953, or 11·04 per cent., that is, from maunds 2,981,331, value Rs. 3,42,64,781, in 1894-95, to maunds 3,554,714, value Rs. 3,80,47,734, during the past official year.

17. The total Imports from the Panjab amounted during the year under report to maunds 10,391,060, value Rs. 4,04,77,525, against maunds 12,217,608, value Rs. 3,65,70,018, in the year 1894-95, showing a decrease in quantity of maunds 1,826,548, or 14·95 per cent., and an increase in value of Rs. 39,07,507, or 10·69 per cent. The falling off is noticeable chiefly in Cotton Piece-goods, Indian, Wheat, Jowari and Bajri, Grain, other sorts, Rape and Mustard seeds, Til or Gingelly seed, Oil seeds, other sorts, Provisions, other sorts, Railway Materials, other sorts, and Wool, raw. Trade, however, improved in Cotton, raw, Drugs, other sorts, Indigo, Aniline dyes, Dyes and Tans, other sorts, Rice, Hides, Gunny bags, Leather, manufactured, Iron, Oils, other sorts, Linseed, Ghi, Saltpetre, Chillies, and Sugar, unrefined.

18. In Imports from the North-Western Provinces and Oudh, there is an improvement of maunds 34,787, or 10·38 per cent., value Rs. 85,536, or 5·03 per cent., compared with the year 1894-95, when they amounted to maunds 335,153, value Rs. 16,99,094, against maunds 369,940, value Rs. 17,84,630, in the year 1895-96. The rise is observable in Drugs, other sorts, Rice not in the husk, Gram and Pulse, Hides, raw, Leather, manufactured, Iron, Ghi, Railway Carriages and Trucks, Steel Rails and Fish Plates, and other Railway Materials. In Cotton Piece-goods, Indian, Wines, Provisions, other sorts, Tea, Indian, and Sugar, there is a decrease.

19. Imports from Rajputāna and Central India advanced from maunds 187, value Rs. 3,528, in 1894-95 to maunds 713, value Rs. 13,580, in the year under notice, being an excess of maunds 526, value Rs. 10,052, or nearly three times more, principally in Cotton Piece-goods, Indian, Hides of cattle, Ghi, Spices, other sorts, and Woollen Piece-goods, Indian. A decrease, however, occurs in Drugs, other sorts, and Leather, manufactured.

20. The Export trade with the Panjab has increased to the extent of maunds 564,340, or 19·5 per cent., value Rs. 36,92,635, or 10·93 per cent. In 1894-95, maunds 2,893,456, valued at Rs. 3,37,77,943, were exported against maunds 3,457,796, value Rs. 3,74,70,578, in the past official year. The principal articles in which the rise is perceptible are Coal and Coke, Cotton Twist and Yarn and Piece-goods, Indian, Indigo, Aniline dyes, Dyes, other sorts, Jowari and Bajri, Skins, raw, Wines, Copper, Brass, unwrought, Iron, Metals, other sorts, Paper and Pasteboard, Dried Fruits and Nuts, Carriages and Trucks, Sleepers and Keys, and Other Railway Materials, Foreign Silk, raw, Stone and Lime, Sugar, refined, Tea, Indian, Woollen Piece-goods, Indian, and Shawls. In Cotton Twist and Yarn, European, Turmeric, Rice not in the husk, Gunny bags, Ghi, Kerosine oil, Oils, other sorts, Locomotive Engines and Tenders, Steel Rails and Fish Plates, Silk Piece-goods, Tea, Foreign, Tobacco, unmanufactured, and Woollen Piece-goods, European, the trade declined.

21. There is an advance of maunds 9,918, or 11·48 per cent., value Rs. 90,002 or 18·95 per cent., in Exports to the North-Western Provinces and Oudh contrasted with the year 1894-95, when they were maunds 86,404, value Rs. 4,74,945, against maunds 96,322, value Rs. 5,64,947, during the year under review. The rise occurred chiefly in Indigo, Lac (stick), Leather, manufactured, Wines, Copper, Iron, Oils, other sorts, Steel Rails and Fish Plates and Woollen Piece-goods, European. There is, however, a falling off in Cotton Piece-goods, Beer, Metals, other sorts, Kerosine oil, Provisions, other sorts, and Railway Materials, other sorts.

22. A decrease of maunds 346, or 52·91 per cent., is noticeable in the total quantity exported to Rajputana and Central India during 1895-96, but there is an increase of Rs. 3,594, or 90·59 per cent., in the value thereof, as compared with the previous year, when Exports amounted to maunds 654, value Rs. 3,967, against maunds 308, value Rs. 7,561, in the year under report. Iron is the only article responsible for the decrease in quantity, while Cotton Piece-goods, Indian, Indigo and Woollen Piece-goods, Indian, contributed to the increase shown in the total value.

23. The trade with the other external blocks is too small to require any comments.

24. The principal articles, imported from both External and Internal blocks, which show marked fluctuations, as compared with the year 1894-95, are noted below:—

(*a*) Increase in—

1. Cotton, raw.
2. Drugs, other sorts.
3. Dyes, other sorts.
4. Wheat.
5. Hides, raw.
6. Leather, manufactured.
7. Ghi.
8. Dried Fruits and Nuts.

(*b*) Decrease in—

1. Indigo.
2. Rice not in the husk.
3. Jowari and Bajri.
4. Rape and Mustard.
5. Til or Gingelly.
6. Oilseeds, other sorts.
7. Railway Materials, other sorts.
8. Sugar, unrefined.
9. Wool, raw.

25. The increase in Cotton, raw, is due to a large crop and better demand from Europe.

26. Notwithstanding the drought and the consequent failure of crops and rise in their prices during the latter half of the year 1895-96, there is a net increase of over 6 lakh maunds in the total imports of Wheat during the year. This is owing to favourable crops and large shipments in response to a brisk demand from the United Kingdom during the first two quarters of the year.

27. The improvement under Hides, raw, is in consequence of a continued demand in the European markets.

28. The fall in Rice not in the husk has been caused by failure of crops in Sind.

29. The decrease in Jowari and Bajri is ascribed to want of rain and to high prices in the exporting districts.

30. Failure of crops and smaller demand from Europe restricted the imports of Rape and Mustard seeds, but the decline in the trade in these seeds has been caused by a diversion of the trade.

31. The falling off in Til or Gingelly seed and Oilseeds, other sorts, is attributed to scanty crops and less demand for export.

32. There were smaller imports of Railway Materials, other sorts, owing to diminished demand by the Railway Department.

33. Imports of unrefined Sugar to Karachi are less than those of the previous year owing, apparently, to smaller crops in the North-Western Provinces and Oudh, from whence it is chiefly imported. Stocks lying over from the previous year in this market also checked the imports to a certain extent.

34. The decline in Wool, raw, is due to low prices ruling in England and to the prohibitive trade policy of the Amir of Kabul.

35. The variations in other articles are due to ordinary trade fluctuations.

36. Exports of the following articles exhibit marked fluctuations in comparison with the year 1894-95 :—

(*a*) Increase in—

1. Coal and Coke.
2. Dyes, other sorts.
3. Jowari and Bajri.
4. Metals.
5. Steel Rails and Fish Plates.
6. Sleepers and Keys of Steel, &c.
7. Railway Materials, other sorts.
8. Stone and Lime.
9. Sugar, refined.

(*b*) Decrease in—

1. Cotton Twist and Yarn, European.
2. Do. Piece-goods do.
3. Kerosine oil.
4. Locomotive Engines and Tenders.
5. Woollen Piece-goods, European.

37. The increase in the exports of Coal and Coke is ascribed to Railway demand.

38. The improvement under the head Dyes and Tans, others, is attributed to a strong demand for inland dyeing industries.

39. Larger exports of Jowari and Bajri are due to favourable prices.

40. There are large increases under Steel Rails and Fish Plates, Sleepers and Keys, and other Railway Materials, in consequence of the construction of additional Railway lines.

41. Exports of Stone and Lime are greater than those of the previous year owing to increased building operations.

42. The rise under Sugar, refined, has been caused by a good demand from the interior for European Sugar, owing to low prices.

43. The decrease in Cotton Twist and Yarn and Piece-goods, European, is due to smaller up-country demand.

44. Exports of Kerosine oil are at a very low ebb on account of a rise in prices, caused by imports from Batoum having decreased owing to a combination of producers to keep up prices.

45. The decrease in Locomotive Engines and Tenders is ascribed to diminished demand by the Railway Department.

46. The rise and fall in other articles are on account of ordinary fluctuations in trade.

47. The table below shows the External trade with special reference to the Internal blocks of the Province of Sind for the year 1895-96 compared with the previous year :—

Internal blocks.	Imports.				Exports.

It will be observed from the above statement that the proportion borne by the trade of Karachi to the entire trade of the Province with the different External blocks has been reduced under Imports as well as Exports. During the year under report, Karachi received 88·46 per cent. against 88·78 per cent. in the year previous, that is, ·32 per cent. less, and exported 67·83 per cent. against 72·33 per cent. in 1894-95; that is, 4·5 per cent. less.

48. The following statement has been prepared in accordance with Government of India letter No. $\frac{150}{11-8}$ Statistics, dated 19th January 1891, embodied in Bombay Government Resolution No. 1277, dated 17th February 1891, Revenue Department, and modified in accordance with the instructions contained in the Director General of Statistics, Calcutta's letter No. 28, dated 24th January 1896. It exhibits the principal commodities imported into Karachi and exported by sea during the past official year :—

49. It will be seen from the above statement that the exports by sea o Wheat, Linseed, Mustard and Rape seeds and Til or Gingelly seed, during th year under report, exceed the imports of these articles by rail, road, river an sea (coastwise). This is ascribed to the existence of previous years' stocks i the local market. Exports of Cotton, raw, and Wool, raw, are, however, les than their imports.

50. The subjoined table shows the share taken by Sind and the Panjal in the exportation, of the principal commodities, by rail and river, to the sea port town of Karachi during the year 1895-96 contrasted with the previou year :—

51. On a comparison of the imports from Sind with those from the Panjab, as noted in the above statement, it will be seen that this year Sind contributed more in Til or Gingelly seed only, while more Wheat, Cotton, raw, Mustard and Rape seeds, and Wool, raw, were supplied by the Panjab.

52. During the year under report, Sind supplied more Cotton, raw, Wheat, and Mustard and Rape seeds, but less Til seed and Wool, raw, than in the previous year.

53. Compared with the year 1894-95, the Panjab despatched more Cotton, raw, and Wool, raw, but less Wheat, and Mustard, Rape and Til or Gingelly seeds.

54. The total quantities of the Internal or Local trade carried on between the Internal blocks of the Province of Sind during the years 1894-95 and 1895-96 are shown in the following comparative statement :—

Total ...	7,242,373	7,242,373	9,256,555	9,256,555

55. Imports from Sind into Karachi rose from maunds 5,739,673 in 1894-95 to maunds 6,031,933 in the year under review. The increase, which amounts to maunds 292,260, or 5·09 per cent., is observable chiefly in Cotton, raw, Drugs, other sorts, Dyes and Tans, other sorts, Wheat, Gram and Pulse, Hides, raw, Rape and Mustard seeds, Dried Fruits and Nuts, Railway Carriages and Trucks, Steel Rails and Fish Plates, other Saline substances, Silk Piece-goods, Indian, and Stone and Lime. Cotton Piece-goods, Indian, Indigo, Rice not in the husk, Jowari and Bajri, Grain, other sorts, Gunny bags, Shell Lac, Wines, Oils, other sorts, Til or Gingelly seed, Oilseeds, other sorts, Ghi, Provisions, other sorts, Railway Materials, other sorts, Spices, other sorts, and Wool, raw, show a decline.

56. During the year under report, Exports from Karachi to Sind have more than doubled those of the preceding year. The trade advanced from maunds 1,502,700 in 1894-95 to maunds 3,224,622 in 1895-96, principally in Coal and Coke, Cotton Twist and Yarn, Piece-goods, Indian, Aniline Dyes, Wines, Copper, wrought, Iron, Kerosine oil, Oils, other sorts, Paper and Pasteboard, Ghi, Dried Fruits and Nuts, Provisions, other sorts, Steel Rails and Fish Plates, Sleepers and Keys, and other Railway materials, Salt, other Saline substances, Foreign Silk, raw, Stone and Lime, and Sugar, refined. The articles in which a decrease is conspicuous are Cotton, raw, Cotton Piece-goods, European, Drugs, other sorts, Turmeric, Rice not in the husk, Skins, raw, Spirits, Brass, wrought, Locomotive Engines and Tenders, Railway Carriages and Trucks, Silk Piece-goods, Foreign and Woollen Piece-goods, European.

57. The next table shows the net weight and value of the principal commodities of River-borne trade that took the rail at Sukkur and Kotri during the year under review:—

58. A reference to the above statement will show that a little over 22¼ lakhs of maunds, worth more than a crore of rupees, of articles of the river-borne traffic were imported by rail from Sukkur and Kotri into Karachi for exportation by sea.

59. The Import and Export River-borne traffic between Keti Bandar and Sukkur and Kotri during 1895-96 is tabulated below:—

60. From the above statement, it will be observed that articles consisting of Tobacco and Spirits, valued at a little over two thousand rupees, were imported from Kotri alone, and over 41 thousand rupees' worth of goods, *viz.*, Brass and Copper, wrought, Iron, Drugs, other sorts, Stone and Lime, Timber, and Sundries, manufactured, were exported to Sukkur and Kotri.

61. The re-export trade by sea from Karachi to Keti Bandar, as shown in the sea-borne trade report, did not pass beyond Sind during the official year 1895-96.

REPORT ON THE INTERNAL LAND TRADE OF THE PROVINCE OF SIND FOR 1895-96.

Statements E and F, showing Imports into and Exports from Sind by land from and to the Native States in India during the years 1894-95 and 1895-96, as registered at the several *nakas* in Sind, are appended in conformity with the Government of India orders contained in their letter No. 3680-74 Statistics, dated 31st December 1892, Department of Revenue and Agriculture.

2. The trade has been registered at the stations mentioned in last year's report and also at Virawah in the Thar and Parkar District, which was started from the 1st November 1895, under the authority of Government Resolution No. 7659, dated 4th October 1895. An additional sum of Rs. 3 per mensem has been sanctioned by the Government Resolution quoted above for the registration of the trade at the new post at Virawah.

3. The stations at which the trade was registered, and the allowances paid to the Munshis placed at the different posts during the past official year, are detailed below :—

5. The total value of the Import and Export trade with each Native State during the year 1895-96 is compared with that of 1894-95 in the next table :—

	Imports.		Exports.	
	1894-95.	1895-96.	1894-95.	1895-96.

Total ...	2,86,340	3,51,900	13,61,079	10,38,266

It will be seen from the above statement that, this year, there is an increase of Rs. 65,560, or 22·9 per cent., in the value of the Imports and a decrease of Rs. 3,22,813, or 23·72 per cent., in that of the Export trade with the Native States as compared with the year 1894-95.

6. Imports from Cutch have greatly improved, *i.e.*, to the extent of Rs. 1,00,925, or 48·39 per cent., the figures for the past two years being Rs. 2,08,576 and Rs. 3,09,501, respectively. The values of Imports from Palanpur and Jodhpur are, respectively, Rs. 24,095 and Rs. 17,654 against Rs. 16,526 and Rs. 58,009 in 1894-95. Imports from the other countries are too small to call for any remark.

7. There is a considerable decrease in exports to all the countries except Kathiawar. The Deputy Commissioner, Thar and Parkar, ascribes this general decrease to the failure of crops, occasioned by a deficient rainfall in the Desert, during the year under report.

Imports.

8. The following table contrasts the value of articles that were imported during the year with that of the Imports of the previous year :—

9. *Cattle.*—Under this head, the trade improved by Rs. 49,436. Imports were chiefly from Cutch.

10. *Animals, other kinds.*—Imports show a decrease of Rs. 31,155 compared with the year 1894-95, when they were Rs. 52,725 against Rs. 21,570 in the year under notice.

11. *Cotton Piece-goods (European).*—This year the trade in Cotton Piece-goods (European) declined to the extent of Rs. 5,245. From Cutch, Rs. 455 worth of Piece-goods was imported against Rs. 4,245 in 1894-95.

12. *Cotton Piece-goods (Indian).*—Imports have more than trebled those of the year 1894-95, when they were Rs. 29,549 against Rs. 1,05,964 in 1895-96. The supplies were received wholly from Cutch.

13. *Other rain crops.*—Compared with the year 1894-95, there is a rise in the Imports of this year. The trade improved from Rs. 2,463 in 1894-95 to Rs. 12,228 in 1895-96.

14. *Hides of cattle.*—There were no Imports of hides in 1894-95 against Rs. 10,201 in the year under review. Cutch is the only place from which they were imported.

15. *Metals—Brass and Copper.*—Less to the extent of Rs. 10,208. Imports declined from Rs. 15,205 in 1894-95 to Rs. 4,997 in 1895-96, chiefly from Cutch.

16. *Til seed.*—There is a large decrease in Imports of this commodity. They receded from Rs. 37,434 in 1894-95 to Rs. 3,707 in 1895-96. Rs. 31,166 worth of Til seed was imported from Jodhpur in 1894-95 against Rs. 3,707 in the year under review.

Exports.

17. The subjoined table shows in a comparative form the principal and other articles exported during the year 1894-95 and 1895-96 :—

Other articles	Value.	...	24,830	.....	24,549
Total		...	13,61,079	...	10,38,266

18. *Animals—Cattle.*—Under this head, there is a diminution of Rs. 3,62,952 compared with 1894-95, when the Exports amounted to Rs. 4,76,856 against Rs. 1,13,904 in the year under notice. This is due to less demand for cattle in Cutch and Junagad.

19. *Cotton Piece-goods (Indian).*—There is a slight decrease, amounting to Rs. 502, in Exports of Cotton Piece-goods, Indian, owing, apparently, to ordinary fluctuations in trade.

20. *Rice, husked.*—There is a falling off to the extent of Rs. 10,037 in Exports of this article as compared with 1894-95, when they were Rs. 25,095 against Rs. 15,058 in 1895-96.

21. *Rice, unhusked.*—In Exports of this commodity, there is a large increase amounting to Rs. 75,249. The figures for the past two years were Rs. 3,41,041 and Rs. 4,16,290 respectively. The Deputy Commissioner, Thar and Parkar, reports that the increase in these Exports is due to a greater demand having arisen over the border in consequence of the season having proved unfavourable there.

22. *Other rain crops.*—Exports rose from Rs. 30,523 in 1894-95 to Rs. 34,519 in the year under report. The increase of Rs. 3,996 is ascribable to ordinary trade fluctuations.

23. *Oils, other kinds.*—Under this head, the trade fell from Rs. 18,004 in 1894-95 to Rs. 13,575 in the year under review, being a decrease of Rs. 4,429.

24. *Provisions—Ghi.*—Exports receded from Rs. 4,09,857 in the year 1894-95 to Rs. 4,05,508 in the year under notice, being a diminution of Rs. 4,349, which is owing to Palanpur having taken no Ghi this year, while in the year previous Rs. 4,677 worth of Ghi was exported to that country.

25. *Til or Gingelly Seed.*—Exports fell from Rs. 22,708 in the year 1894-95 to Rs. 3,200 in the year under notice, showing a deficiency of Rs. 19,508, owing to deficient crop.

Below the Collector of Customs, Karachi's No. L-348, dated 4th September 1896.

No. A 8174 OF 1896.

Submitted to Government.

2. In paragraphs 2 to 10 of the report, details regarding registration of trade, formation of blocks and the system of assigning values are given. These are repeated from year to year, even when no change is effected, and might be omitted. The long statement of changes in Railway freights given in paragraph 11 could also, with some advantage, be transferred from the body of the report to the several statements at the end as an appendix, as is done in the report for the Presidency proper.

3. The subjoined table compares in round numbers the quantity and value of the total trade with those of the previous year and the average for the last five years :—

Note.—The figures of trade in Railway Plant and Rolling Stock are included in the above for the first time. They were hitherto excluded, as their details were not available to strike the average for five years.

The total trade during the year improved both in volume and value. The volume exhibited an increase of 3·9 per cent. over last year and 10·8 per cent. above the average. The values increased by 16·2 per cent. and 20 per cent. above last year and the average, respectively. The total external trade declined by 7·7 per cent. below that of the previous year, but exceeded the average by 5·1 per cent., while the value showed an increase of 10·9 per cent. and 17·2 per cent. over the previous year and the average, respectively. The external trade of Sind is almost wholly with the Panjab (96·7 per cent.). The local trade presented a marked improvement, the increase in quantity over the last year and the average being 27·3 per cent. and 20·8 per cent., respectively. The corresponding increase in value was 24·4 per cent. over last year and 24·1 per cent. above the average.

4. The table given below denotes the chief imports into and exports from the Province. Of the total imports 88 per cent., as against 90 per cent. during the previous year, were received by the port of Karachi, almost the whole being receipts from the Panjab. Of the total exports, nearly two-thirds were sent out from the Karachi port. The external trade of the Karachi port improved under exports by 11·8 per cent., but declined under imports by 14·5 per cent.

Imports.

5. Imports show a fall of 14·3 per cent. below those of the previous year; but are still 2·9 per cent. above the average. The variations in imports under principal items are as noted in the margin. Imports of all articles, except Cotton, raw, Hides and Skins, and Ghi, decreased, owing to shorter receipts, mainly from the Panjab. The decrease is chiefly noticeable in the importations of Wheat, Other Food Grains, and Oil Seeds. The fall under Wheat exists only in comparison with the receipts during 1894-95. For imports of 1895-96 were much higher when compared with the previous years, as noted in the margin, both because the demand in foreign markets had improved and the Wheat harvest of 1894-95 in the Panjab, though not quite as good as that of 1893-94, was on the whole very nearly so. For the fall under other Food Grains, Millets are chiefly responsible. The unfavourable season of 1895-96 in the Panjab restricted full sowings of the Millets. Of the decline under Oil Seeds, as much as 75 per cent. appeared under Rape and Mustard, for which the harvest in the Panjab was poor. Til or Gingelly fell off by 42·2 per cent. and other Oil-seeds by 76·6 per cent.

Imports under Cotton, raw, improved from 180,000 to 514,000 maunds, or by 185·5 per cent., owing to increased receipts from the Panjab, which in 1895-96 enjoyed a good crop after a long interval. Receipts under Hides and Skins rose from 30,000 to 87,000 maunds, being the result of larger importations from the Panjab for foreign exports.

Among other articles, imports of Ghi from the Panjab increased from 25 to 35 thousand maunds, due probably to increased demand to meet the special marriage season of the year. Under Railway Plant and Rolling Stock, Rails show an increase of 6,000 maunds, owing to larger consignments from North-Western Provinces and Oudh, but this increase was more than counterbalanced by a conspicuous decline in receipts of Railway Materials, "other sorts," from the Panjab (—25,000 maunds). Supplies of unrefined Sugar from the Panjab increased by 45,000 maunds to supplement the deficit caused by shorter receipts from North-Western Provinces and Oudh (—51,000 maunds).

Exports.

6. Exports rose by 20 per cent. above last year and 12 per cent. above the average. In the Export trade, which mostly consists of articles of foreign merchandise, the port of Karachi spared about two-thirds of the trade. Under Cotton (manufactured), despatches of Yarn and Cloth, both European, from Karachi to the Panjab decreased by 4 and 24 thousand maunds, respectively. The trade under Indian Yarn is not noticeable, but that of Indian Piece-goods showed an increase of 14,000 maunds in the imports from Bombay, thereby indicating that Bombay production continues to be in favour in the up-country markets. Karachi shortened its exports to the Panjab and North-Western Provinces and Oudh under Kerosine by 97,000 and 10,000 maunds, respectively. The decline is partly owing to rise in prices, consequent upon reduced supply from foreign countries, and partly owing to less demand in the importing provinces having a stock in hand out of the large importations of the previous year. The remaining articles show a rise in their exports, notably in Stone and Lime, Railway Plant and Rolling Stock, Sugar (refined) and Metals. Under Stone and Lime, the increase of 253,000 maunds occurred wholly in the exports to the Panjab, apparently owing to increased building operations in the interior up-country. Larger receipts by the Panjab account for the increase in export under all sub-heads of Railway Plant and Rolling Stock, in consequence of the construction of additional Railway lines. Exports under Sugar (refined) to the Panjab rose from 244 to 384 thousand maunds. This rise is almost steady and perceptible during the last five years, as will be noticed from the marginally quoted figures. The increase in the exports of Metals is owing to larger despatches of Iron, chiefly from Karachi, to the Panjab (+41,000 maunds), and may be due to causes explained under Stone and Lime and Railway Materials, above. The small variations in exports of other articles are the result of ordinary trade fluctuations.

Local Trade.

7. The local trade improved during 1895-96 by 26 per cent. above last year and 21 per cent. above the average. Of the 92½ lakhs maunds of trade, the port of Karachi imported 60⅓ lakhs maunds and exported the rest. Imports into Karachi from Sind rose by 5 per cent. Under Grain and Pulse, there was a contraction of 268,000 maunds under Rice and of 375,000 maunds under Millets. But, apart from this, there was large expansion in the Wheat trade, which swelled from 23½ to 31½ lakhs maunds, the total Grain trade thus giving a rise of 2 lakhs maunds or 5·7 per cent. Under Cotton, raw, Karachi imported half a lakh maunds more than the previous year, the Cotton harvest in Sind being better during the year. Under Oil seeds, Rape and Mustard increased by 63,000 maunds, while Gingelly and other oilseeds decreased by 94 and 14 thousand maunds, respectively. Receipts into Karachi under Railway Plant and Rolling Stock rose by 55,000 maunds, due to larger stock of Carriages and Trucks and Sleepers and Keys. Imports of Hides and Skins into Karachi improved from 11,000 to 29,000 maunds.

As mentioned under Exports, above, the exportations from Karachi were mostly of articles of foreign merchandise. These, compared with the previous year, have been more than doubled during the year under report. The marginal table will show that, of the important articles sent out to Sind from Karachi, all except Piece-goods, European, showed improvement, notably Coal and Coke, Iron, Railway Materials, Stone and Lime and refined Sugar. European Piece-goods fell off from 47 to 38 thousand maunds in favour of Piece-goods, Indian.

8. The river-borne trade between Keti Bandar and Kotri and Sukkur, unlike last year, declined from 9,636 to 4,733 maunds, or by 50·9 per cent. in volume, and from Rs. 58,219 to 43,421 in value. The imports from Sukkur, which had amounted last year to 3,000 maunds, altogether disappeared during 1895-96, and those from Kotri fell off from 1,795 to 79 maunds. This chiefly accounts for the fall in the volume of the trade. Exports from Sukkur declined from 2,000 to 99 maunds; but those to Kotri improved from 2,982 to 4,555 maunds, the increase in the case of the latter being due to larger supply of manufactured articles.

9. The appended table compares statistics of Imports into and Exports abroad from the ports of Bombay and Karachi :—

10. Concurrently with the increase in exports under Cotton, raw, from the port of Bombay, Karachi also showed an increase, though a small one. In respect to Wheat exports, Karachi has still maintained the superiority over Bombay as a port of shipment for Wheat. Along with Wheat, exports of Linseed from Karachi rose from 31 to 42 thousand maunds, owing to a large supply from Sind, while those from Bombay port fell off by 40 per cent. The Linseed harvest of 1894-95 in Sind was better than that of 1893-94, owing to favourable inundations. The excess of exports abroad over imports under all heads, except Cotton and Wool, raw, points to a surplus from the previous year.

11. *Value rates.*—The noticeable variations occurred in the rates of articles noted on the margin. Increase in the price of Wheat is apparently due to less importations from up-country, notably the Panjab; that in Gram is chiefly due to greater export demand and small importations. The rise in the prices of Hides and Skins is owing to active demand and hard competition. Less imports account for the rise in the rates of Earthnut. Prices of Turmeric and Chillies fell off because of better crop during the year.

ROAD-BORNE TRADE.

12. The road-borne traffic between the Native States and Sind has been reported for the second time. The trade was registered at the following stations, at a total cost of Rs. 603 against 330 last year, one station (No. 6) being added during the year:—

Station.	*District in which situate.*
1. Ver	... Karachi.
2. Nagar Parkar... ...	... Thar and Parkar.
3. Godra	... Do.
4. Baliari	... Do.
5. Khipra	... Do.
6. Verawah	... Do.

The total trade registered at these stations declined from Rs. 16,47,419 to Rs. 13,90,166. The fall in value of the Export trade was solely responsible for this decline, Imports having improved from nearly 3 lakhs to 3½ lakhs of Rs. The comparison with the previous year is, however, valueless inasmuch as the number of stations and the period for which trade at some of them was registered varied during the year. Ver station in Karachi and Khipra in Thar and Parkar were opened late during 1894-95. Virawah in Thar and Parkar was added, and trade was registered for five months only during the year under report.

92 per cent. of the road-borne trade was with Cutch; the principal articles of imports from Cutch, besides Cattle and other Animals, were Piece-goods Indian, Copper, Brass and Hides of Cattle; and of exports to Cutch were Rice, Ghi and Oils.

REPORT ON THE RAIL AND RIVER-BORNE TRADE OF THE PROVINCE OF SIND FOR THE YEAR 1896-97.

This Report deals with the Rail-and River-borne trade of the Province of Sind for the official year 1896-97, and is based upon the Returns furnished by the officers named below :—

(*a*) The Import and Local or Internal trade has, as before, been registered in the office of the Examiner of Accounts, North-Western Railway, Lahore.

(*b*) The Assistant Conservator and Registrar, River Indus, Sukkur, has, as usual, registered the Import and Export Local trade by the River Indus.

(*c*) The Export trade has been registered by the Examiner of Accounts, North-Western Railway, Lahore, the Examiner of Accounts, Oudh and Rohilkhand Railway, Lucknow, and the Assistant Auditor, East-Indian Railway, Jamalpur, in respect of the portion with which they are respectively concerned. The portion of the Export trade which was formerly registered by the Examiner of Guaranteed Railway Accounts, Bombay, has, this year, been registered in the offices of the different Railways concerned, and the figures were furnished by them to the Examiner of Guaranteed Railway Accounts, Bombay, who has communicated them to this office.

2. The Returns supplied by the above officers are consolidated and reviewed in this office every quarter, and printed copies thereof are furnished to the Government of India, Local Governments and Administrations, &c., in accordance with the orders of the Government of Bombay contained in their Resolution No. 2129, dated 24th March 1890.

3. In accordance with the remarks of the Survey Commissioner and Director, Land Records and Agriculture, Bombay, contained in paragraph 2 of his last year's review, the Statement showing the changes in Railway freight during the year 1896-97 has been attached as Appendix I.

4. Special mention of the system of assigning values and formation of blocks has, as usual, been made in the body of the Report, as it is considered useful and necessary. As regards the repetition of the rules for the classification of the Indus traffic figures mentioned in paragraph 9 of last year's Report, definite instructions were issued as to their insertion every year in Government of India letter No. $\frac{518}{57-3}$ dated 5th June 1890, Revenue and Agricultural Department.

5. Statement A shows the rates of deduction from gross weights and the average price of articles of the Rail and River-borne trade of Sind, as well as all other Provinces of British India, for the year 1896-97. These additions have been made in accordance with the remarks contained in paragraph 2 of the Financial Commissioner, Panjab's letter No. 434, dated 25th January last, to the Director General of Statistics, Calcutta.

6. The other Appendices have been prepared in the usual form, the only changes effected being in the classification of the articles, as noted below :—

(1) The heading "Aniline Dyes" has been changed into "Alizarine and Aniline Dyes."

(2) A new head, "Hemp and other Fibres," has been opened to distinguish these fibres from "Jute."

(3) The heading "Iron" has been changed into "Iron and Steel," and sub-divided as under:—

(*a*) Cast.
(*b*) Unwrought.
(*c*) Wrought, and
(*d*) Manufactures.

(4) A new head has been opened for "Treasure," with its three sub-heads, *viz.*,

(*a*) "Gold Coin and Bullion," (*b*) "Silver Coin," and (*c*) "Silver Bullion."

This year, there was no traffic under the first sub-head, *viz.*, "Gold Coin and Bullion."

Imports of "Silver Coin" amounted to Rs. 73,77,599, and Exports to Rs. 44,49,649.

"Silver Bullion" worth Rs. 30,26,864 was imported and Rs. 32,99,209 exported in 1896-97.

7. The Internal blocks of the Province of Sind are the same as before, *viz.*, (1) Karachi and (2) Sind, excluding Karachi.

8. The value rates of the following articles present marked fluctuations in comparison with those of the year 1895-96 :—

Articles.	Rate per maund for 1895-96.			Rate per maund for 1896-97.		
	Rs.	a.	p.	Rs.	a.	p.

Tobacco, unmanufactured	8	15	0	10	10	0
Woollen Piece-Goods, European	209	0	0	205	8	0

9. The decrease in prices of Cotton Twist, Yarn and Piece-Goods, European, and of Woollen Piece-Goods, European, is due to an improvement in the rate of exchange.

10. The prices of raw Hides and Skins are less in consequence of large supply, caused by heavy mortality among cattle in distressed tracts.

11. The decrease in the value rate of Linseed is attributed to less demand, owing to the existence of previous years' stocks.

12. The rise in the prices of the remaining articles is due to limited supplies, owing to scarcity.

13. The system of assigning values has not undergone any change, and is as follows :—

(*a*) The values of the Export and Local trade as well as those of the Import trade with the Native States are taken from the rates shown in Statement A, attached, which is prepared from the quaterly Returns, and which exhibits the average rates for the whole year. These rates are obtained as follow :

The rates for foreign goods shown in the quarterly Returns are obtained from invoice values and are supplied by the Appraising Department of this Customs House, and those for Indian goods and for Railway Plant and Rolling-stock are furnished by the Director, Land Records and Agriculture, Bombay, in accordance with Government of Bombay Resolution No. 7316, dated 15th October 1890, Revenue Department.

(*b*) For Import trade from the External blocks, except Native States, the values are calculated according to the rates furnished by the officers of the exporting provinces, in accordance with the Government of India orders contained in Circular No. $\frac{45}{35\text{-}26}$ Statistics, dated 9th May 1888, Department of Revenue and Agriculture.

(*c*) The value of Cotton Piece-Goods, European, imported by railway from Bombay into the Province of Sind, is taken from the average rate, as no separate value rates for bales and boxes are shown in the price list of that Province.

(*d*) The value of Cotton Piece-Goods, both European and Indian, carried by railway between Sind and Karachi, is also taken from the average of the rates for bales and boxes.

14. The trade has, as usual, been classed under two heads, *viz.*, (1) External and (2) Internal.

15. The first head consists of the trade with other Provinces, Native States and Chief Seaport Towns of India, which are—

I.—British Provinces.

1. Madras.
2. Bombay.
3. Bengal.
4. North-Western Provinces and Oudh.
5. Panjab.
6. Central Provinces.
7. Berar.
8. Assam.

II.—Native States.

1. Rajputana and Central India.
2. Nizam's Territory (Hyderabad).
3. Mysore.

III.—Chief Seaport Towns.

1. Madras Sea-ports.
2. Bombay.
3. Calcutta.

16. The second head includes the trade carried from one block to another within the Province of Sind.

17. In accordance with the instructions contained in Government of India letter No. $\frac{158}{57\text{-}3}$ Statistics, dated 5th June 1890, Department of Revenue and Agriculture, the traffic between Sind and the Panjab by the River Indus has been systematically registered and embodied in the Sind Returns from the official year 1890-91. As noticed in previous reports, the quarterly Returns of the Rail-borne traffic between Sind and Karachi are supplied by the Examiner of Accounts, North-Western Railway, Lahore, and those of the River-borne trade between Sind and the Panjab are furnished by the Assistant Conservator and Registrar, River Indus, Sukkur. The Indus traffic figures have, as hitherto, been classified according to the following rules, contained in paragraph 5 of the above letter:—

I. When imports by river from the Panjab exceed the imports by rail from Sukkur and Kotri into Karachi, class the latter as imports from the Panjab into Karachi, and the difference as imports from the Panjab into Sind. Under trade between Sind and Karachi by rail, exclude the exports from Sukkur and Kotri to Karachi and enter the remainder.

II. When the imports by rail from Sukkur and Kotri into Karachi exceed the imports by river from the Panjab, class the latter as imports from the Panjab into Karachi, and the difference *plus* the imports from other stations in Sind to Karachi as trade between Sind and Karachi.

III. When the exports by rail from Karachi to Sukkur and Kotri exceed the exports by river to the Panjab, class the latter as exports from Karachi to the Panjab, and the difference *plus* the exports from Karachi to Sind (excluding Sukkur and Kotri) as trade between Sind and Karachi.

IV. When the exports by river to the Panjab exceed the exports by rail from Karachi to Sukkur and Kotri, class the latter as exports from Karachi to the Panjab, and the difference as exports from Sind to the Panjab. Under trade between Sind and Karachi by rail, exclude the exports from Karachi to Sukkur and Kotri, and enter the remainder.

18. The traffic between Karachi and Sind by railway and that between Sind and the Panjab by the River Indus during the year 1896-97 have been shown in the Statements II-C and III-D, respectively.

19. The following Statement shows the total quantity and value of the Rail and River-borne trade, both External and Internal, of the Province of Sind for the year 1896-97, as compared with those of the previous year:—

24. Imports from the Panjab amounted during the year under report to maunds 4,828,509, value Rs. 3,31,17,103, against maunds 10,391,060, value Rs. 4,04,77,525, in the previous year, showing a decrease of maunds 5,562,551, or 53·53 per cent., value Rs. 73,60,422, or 18·18 per cent., principally in Drugs, other sorts, Alizarine and Aniline Dyes, Dyes, other sorts, Wheat, Rice not in the husk, Jowari and Bajri, Gram and Pulse, Grain, other sorts, Hides, raw, Leather, manufactured, Linseed, Rape, Mustard and Til seeds, Ghi, Dried Fruits, Railway Carriages and Trucks, Sugar, unrefined, and Tea, Indian. There is, however, an improvement in Intoxicating Drugs other than Opium, Indigo, Rice in the husk, Gunny Bags, Other Oilseeds, Railway Materials, other sorts, and Wool, raw.

25. Compared with the year 1895-96, the Import trade with the North-Western Provinces and Oudh shows a decline in quantity to the extent of maunds 18,054, or 4·88 per cent., but an increase in value of Rs. 8,82,195, or 49·43 per cent., having fallen from maunds 369,940, value Rs. 17,84,630, to maunds 351,886, value Rs. 26,66,825, in the year under review. The falling off is noticeable chiefly in Drugs, other sorts, Wheat, Gram and Pulse, Hides, raw, Leather, manufactured, Copper, wrought, Kerosine Oil, Linseed, Railway Carriages, Trucks, Steel Rails, Fish Plates and Materials, other sorts, Sugar, and Indian Tea. The trade, however, improved in Coal and Coke, Cotton Piece-Goods, Indian, Gunny Bags, Brass, wrought, Paper and Pasteboards, Ghi, Provisions, other sorts, and Woollen Piece-Goods, Indian.

26. Imports from Rajputana and Central India have more than doubled themselves as compared with 1895-96, when they amounted to maunds 713, value Rs. 13,580, against maunds 1,459, value Rs. 27,785 in the year under notice. The rise occurred chiefly in Gunny Bags and Ghi.

27. An increase, amounting to maunds 2,384,945, or 68·98 per cent., value Rs. 1,03,82,317, or 27·71 per cent., is noticeable in Exports to the Panjab contrasted with the year 1895-96, when they aggregated maunds 3,457,796,

value Rs. 3,74,70,578, against maunds 5,842,741, value Rs. 4,78,52,895, in 1896-97. The following articles have chiefly contributed to this increase: Wheat, Rice, Jowari and Bajri, Gram and Pulse, Grain, other sorts, Hides, Spirits, Kerosine Oil, Rape and Mustard, Paper and Pasteboard, Railway Carriages, Trucks, and Materials, all sorts, Sugar, Tea, Indian, Tobacco, raw, and Woollen Piece-Goods, Indian. In Coal and Coke, Cotton Twist, Yarn and Piece-Goods, Drugs, other sorts, Indigo, Turmeric, Alizarine and Aniline Dyes, Dyes, other sorts, Gunny Bags, Beer, Wines, Copper, Brass, unwrought, Oils, other sorts, Dried Fruits, and Stone and Lime, the trade declined.

28. Exports to the North-Western Provinces and Oudh have nearly trebled those of 1895-96, when they were maunds 96,322, value Rs. 5,64,947, against maunds 384,362, value Rs. 15,39,271, in the past official year. The rise is conspicuous in Wheat, Rice, Jowari and Bajri, Gram and Pulse, Grain, other sorts, Metals, other sorts, Dried Fruits, Locomotive Engines and Tenders, and Sugar, unrefined. There is, however, a falling off in Cotton Twist and Yarn, European, Piece-Goods, Drugs, other sorts, Indigo, Lac, Stick, Spirits, Copper, unwrought, Oils, other sorts, Paper and Pasteboard, Steel Rails and Fish Plates, and Railway Materials, other sorts.

29. Exports to Rajputana and Central India rose at a bound from maunds 308, value Rs. 7,561, to maunds 7,824, value Rs. 32,436, in the year under report. The rise is noticeable chiefly in Cotton Piece-Goods, Wheat, Rice not in the husk, and Jowari and Bajri. Indigo and Woollen Piece-Goods, Indian, show a decrease.

30. The trade with the other External blocks, except the seaport town of Bombay and Bengal, is too small to call for any remark. The considerable increase, *viz.*, Rs. 9,15,886, in the value of the Import trade with the city of Bombay is in consequence of the opening of the new head "Treasure" in these Returns. Exports to Bengal rose by maunds 6,212, value Rs. 24,924, owing to the despatch of an unusually large quantity of "Railway Materials, other sorts," from Sind to that Province during the year under report. Imports from Calcutta are less in value by Rs. 10,977, although more in quantity by maunds 331.

31. The following articles, imported from both External and Internal blocks, exhibit large fluctuations as compared with the year 1895-96:—

(*a*) Increase in—

1. Indigo.
2. Rice in the husk.
3. Jowari and Bajri.
4. Gunny Bags and Cloth.
5. Ghi.
6. Tobacco, unmanufactured.
7. Wool, raw.

(*b*) Decrease in—

1. Cotton, raw.
2. Dyes, other sorts.
3. Wheat.
4. Rice not in the husk.
5. Gram and Pulse.
6. Grain, other sorts.
7. Hides, raw.
8. Linseed.
9. Rape and Mustard seeds.
10. Til or Gingelly seed.
11. Other Oilseeds.
12. Provisions other than Ghi.
13. Railway Materials, other sorts.
14. Stone and Lime.
15. Sugar, unrefined.
16. Tea, Indian.

32. The increase in Indigo is ascribed to favourable crop.

33. The improvement under Rice in the husk is due to the opening of Rice Mills in Karachi.

34. The increase under Jowari and Bajri is due entirely to larger supplies from Sind, owing to favourable crops.

35. Increased imports of Gunny Bags were in consequence of larger exports of food-grains from Sind to the Panjab and the North-Western Provinces.

36. Imports of Ghi were larger owing to a better demand and to favourable prices consequent upon a smaller supply by sea from the Persian Gulf.

37. The rise under Wool, raw, is attributed to better home demand and low freight.

38. The decrease in Cotton, raw, is due to a later and smaller crop than usual.

39. The falling off under Dyes, other sorts, and Tea, Indian, is said to be due to the absence of merchants owing to the Plague.

40. The abnormal fall under Wheat, Rice not in the husk, Gram and Pulse, and Grain, other sorts, is in consequence of failure of crops, which brought about famine in the Panjab and the North-Western Provinces.

41. The decrease under Hides, raw, is due to low prices ruling in the European markets, and the prevalence of the Plague.

42. The decline in Linseed, Rape, Mustard and Til seeds and Oil seeds, other sorts, is due to scanty crops, owing to insufficient rainfall.

43. The diminished imports of Railway Materials, other sorts, were due to smaller demand by the Railways.

44. The variations in other articles are due to ordinary fluctuations in trade.

45. The principal articles of the Export trade which show increase or decrease as compared with 1895-96 are noted below :—

(*a*) Increase in—

1. Rice.
2. Jowari and Bajri.
3. Gram and Pulse.
4. Kerosine Oil.
5. Railway Carriages and Trucks.
6. Steel Rails and Fish Plates.
7. Sleepers and Keys.
8. Sugar.

(*b*) Decrease in—

1. Coal and Coke.
2. Cotton Twist and Yarn.
3. Do. Piece-Goods.
4. Gunny Bags.
5. Copper.
6. Brass, unwrought.
7. Provisions other than Ghi.
8. Railway Materials, other sorts.
9. Stone and Lime.

46. The increase in Rice, Jowari, Bajri, Gram and Pulse is due to larger supplies having been sent to the famine-stricken districts of the Panjab and the North-Western Provinces.

47. The improvement under Kerosine Oil is due to a better demand from up-country.

48. Increased exports of Railway Carriages, Trucks, Steel Rails, Fish Plates, Sleepers and Keys, &c., are due to better Railway demand for these articles.

49. The rise in Sugar, refined, is in consequence of a strong demand from up-country, owing to cheap prices.

50. The falling off under Coal and Coke is due to a slack demand from the Railway Department, owing to decrease in Railway traffic.

51. The decline in Cotton Twist, Yarn and Piece-Goods, European, is attributed to smaller demand from up-country.

52. The decrease in Gunny Bags is due to smaller demand for them, owing to failure of crops in the Panjab and the North-Western Provinces.

53. Exports of Copper, and Brass, unwrought, declined owing to the absence of dealers on account of the Plague.

54. The rise and fall in other articles are owing to ordinary trade fluctuations.

55. The following Statement exhibits the trade of Karachi and Sind, separately, with the External blocks, as compared with the year previous:—

Internal Blocks.	Imports.				Exports.

Total ...	10,764,339	100	5,184,602	100	3,554,714	100	6,241,361	100

56. The proportion borne by the trade of Karachi to the entire trade of the Province with the different External blocks was shown in 1895-96 to be less than in the year 1894-95 both under Imports as well as Exports. This year, there is a further reduction of 12·15 per cent. under Imports and 4·56 per cent. under Exports.

57. The subjoined table, prepared in accordance with the instructions contained in Government of India letter No. $\frac{150}{11-3}$, Statistics, dated 19th January 1891, and in the Director General of Statistics' letter No. 28, dated 24th January 1896, exhibits the principal commodities imported into Karachi and exported by sea during the past official year:—

	1896-97.	126,921	49,273	131,090	2,639	309,923	138,217

58. It will be observed from the above Statement that Exports by sea of Cotton, raw, Mustard and Rape seeds, and Til or Gingelly seed exceed the Imports of those articles by rail, river, land and sea (coastwise). Exports of Wheat, Linseed and Wool, raw, are, however, less than the total Imports.

59. The share taken by Sind and the Panjab in the exportation of the principal commodities by rail and river to the seaport town of Karachi during the official years 1895-96 and 1896-97 is shown in the comparative Statement given below :—

Articles.	From Sind to Karachi.		From the Panjab to Karachi.

Wool, raw	52,827	49,273	122,263	126,921

60. As in the previous year, Sind has surpassed the Panjab in Exports of Til or Gingelly seed only, whereas the Panjab has supplied more Cotton, raw, Wheat, Mustard and Rape seeds, and Wool, raw.

61. This year, Exports from Sind are less than those of the previous year under all the principal heads stated above, with the exception of Til seed only.

62. Exports from the Panjab are also smaller, in comparison with those of 1895-96, under Wheat, Mustard, Rape, and Til seeds, although somewhat better under raw Cotton and Wool.

63. The following table compares the entire quantities of the trade carried on between the Internal blocks of the Province of Sind during the past two official years :—

Total ...	9,256,555	9,256,555	5,480,817	5,480,817

64. There is a considerable decrease, amounting to maunds 2,772,874, or 45·97 per cent., in Imports from Sind into Karachi as compared with the year 1895-96, when they amounted to maunds 6,031,933 against maunds 3,259,059 in the year under notice. The following articles are responsible for the fall :—Cotton, raw, Drugs, other sorts, Dyes, other sorts, Wheat, Rice not in the husk, Gram and Pulse, Grain, other sorts, Skins, raw, Oils, other sorts, Rape and Mustard, Other Oilseeds, Provisions, Railway Carriages, Trucks, Steel Rails and Fish Plates, Railway Materials, other sorts, Silk Piece-Goods, Indian, Stone and Lime, and Wool, raw. Trade, however, rose in Indigo, Rice in the husk, Jowari and Bajri, Hides, Lac, Stick, Wines, Til seed, Locomotive Engines and Tenders, Silk Piece-Goods, Foreign, Spices, others, Tea, Foreign, and Tobacco, unmanufactured.

65. Exports from Karachi to Sind declined to maunds 2,221,758 from mands 3,224,622 in 1895-96. The falling off, which is maunds 1,002,864, or 31·1 per cent, is perceptible in Cotton Twist and Yarn, Piece-Goods, Indian, Drugs other than Cinchona, Dyes, other sorts, Hides, raw, Gunny Bags, Wines, Copper, unwrought, Metals, other sorts, Oils, others, Paper and Pasteboard, Dried Fruits, Provisions, other sorts, Steel Rails and Fish Plates, Railway Materials, other sorts, Silk Piece-Goods, Foreign, Stone and Lime, Sugar, refined, and Woollen Piece-Goods, European, Coal and Coke, Twist and Yarn, Indian, Cotton Piece-Goods, European, Aniline and Alizarine Dyes, Jowari and Bajri, Gram and Pulse, Beer, Kerosine Oil, Cocoanut Oil, Locomotive Engines and Tenders, Railway Carriages and Trucks, Sleepers and Keys, Silk, raw, and Piece-Goods, Indian, and Sugar, unrefined.

70. The re-export trade by sea from Karachi to Keti Bandar, as shown in the Sea-borne Trade Report, did not pass beyond Sind during the past official year.

5. The above Statement shows that Imports have declined from Rs. 3,51,900 in 1895-96 to Rs. 1,59,784 in 1896-97, *viz.*, by Rs. 1,92,116, or 54·59 per cent., while Exports have advanced from Rs. 10,38,266 to Rs. 10,96,720, or to the extent of Rs. 58,454, or 5·63 per cent.

6. A falling off of Rs. 1,82,691, or 59·03 per cent., is noticeable in imports from Cutch as compared with 1895-96, when they were Rs. 3,09,501 against Rs. 1,26,810 in the year under notice. Jodhpur and Palanpur likewise show a decrease of Rs. 3,360 and Rs. 7,653, the trade having receded from Rs. 17,654 and Rs. 24,095 to Rs. 14,294 and Rs. 16,442, respectively.

7. The Export trade with Cutch, Jodhpur, Palanpur and Jesalmir exhibits an increase. Exports to Kathiawar, however, show a decrease. Animals (Horses and Cattle) were for the first time despatched to the Baroda State.

The Deputy Commissioner, Thar and Parkar, explains the variations as under:—

> "This year, the rain was seasonable, copious and well distributed. The result is that there has been an increase in the area cropped and abundance of fodder, which facts have gone in a measure to develop the trade."

8. The subjoined Statement exhibits, contrasted with the figures for 1895-96, the value of the principal and other articles imported during 1896-97:—

9. *Cattle.*—There is a decrease of Rs. 68,508, principally in imports from Cutch. The figures for the past two years are Rs. 1,01,551 and Rs. 33,043, respectively.

10. *Other kinds of Animals.*—The trade fell from Rs. 21,570 in 1895-96 to Rs. 4,425 in 1896-97, *i.e.*, by Rs. 17,145, owing to less imports from Cutch.

11. *Cotton, raw.*—The improvement of Rs. 9,184 is due entirely to larger imports from Cutch.

12. *Cotton Piece-Goods (European).*—A larger supply from Cutch and Palanpur has contributed to the net increase of Rs. 9,091.

13. *Cotton Piece-Goods (Indian).*—The trade is less by Rs. 85,458, owing to smaller imports from Cutch. It declined from Rs. 1,05,964 in 1895-96 to Rs. 20,506 in 1896-97.

14. *Other Rain Crops.*—Less imports from Cutch and Palanpur have brought about the decrease of Rs. 7,381 under this head.

15. *Hides of Cattle.*—The falling off amounts to Rs. 7,531, and is owing to restricted imports from Cutch.

16. *Silk, manufactured.*—The diminution, amounting to Rs. 3,531, is due to supplies from Cutch being limited.

18. *Horses, Ponies and Mules.*—The Export trade has risen considerably, *viz.*, from Rs. 2,592 in 1895-96 to Rs. 22,847 in 1896-97. This is due to the demand from Cutch being large. Besides, Rs. 13,000 worth of animals were for the first time supplied to the Baroda State.

19. The trade in Cattle has more than doubled itself, Baroda and Cutch having drawn largely.

20. The decrease in unhusked Rice has been more than counterbalanced by the increase in husked Rice. Cutch is the principal dealer in this article.

21. *Other kinds of Oil.*—Cutch drew less this year, hence the falling off of Rs. 7,712.

22. *Ghi.*—The only country to which Ghi was exported is Cutch. The quantity supplied is less than half that of the year 1895-96, when it was Mds. 15,221, value Rs. 4,05,508, against Mds. 7,120, value Rs. 2,25,126, in the year under report.

23. *Other Oil Seeds.*—The trade rose from Rs. 738 in 1895-96 to Rs. 20,850 in 1896-97, showing an increase of Rs. 20,112, owing to larger exports to Cutch and Palanpur.

24. The Export trade under "Tobacco" shows a like development, chiefly with Jodhpur. It rose from Rs. 1,957 in 1895-96 to Rs. 7,542 in 1896-97, or by Rs. 5,585.

R. N. COGHLAN,
Chief Collector of Customs in Sind.

No. A-3756 of 1897.

Poona, 27th November 1897.

Report on the Rail and River-born Trade of the Province of Sind for the year 1896-97.

Submitted to Government.

2. The subjoined table compares in round numbers the quantity and value of the total trade with those of the previous year and the average for the last five years.

Total Trade.

(Figures in lakhs of Maunds and Rupees.)

(L. M.=Lakhs of Maunds.)

Kind of trade.	Quantity.			* Value.		
	Average for five years ending 1895-96.	1895-96.	1896-97.	Average for five years ending 1895-96.	1895-96.	1896-97.

Total Trade ...	223	236	169	1,232	1,390	1,237

* *Note.*—Valuation of the new article "Treasure" has been excluded from this review in order to obtain a fair comparison.

The total trade decreased both in quantity and value. The volume diminished by 28·4 p r cent. below last year and 24·2 per cent. below the average. The values, though slightly exceeding the average, were 11 per cent. below last year. The total external trade was over 20 per cent. under last year and the average. The external trade would have shown a very heavy depression, if the exports had not abnormally expanded. (72·2 and 82·3 per cent. respectively over last year and the average.) 93 per cent. of the total external trade of Sind was with the Panjab. The local trade also underwent depression, the quantity being 40 and 31 per cent. and the values 25·9 and 13·6 per cent. below last year and the average, respectively.

3. In the table below paragraph 19 of the report, the Chief Collector of Customs has included the value of Treasure, for which a new head has been opened in the year under report, though the quantity of Treasure has been excluded from the table. Under instructions conveyed in Government Resolution No. 2231, dated 11th March 1896, both quantity and value should have been excluded.

4. The following table exhibits the chief articles of the import and export trade of the Province. Of the total imports, the port of Karachi claimed as much as 76·3 per cent. against 88 per cent. of the previous year. Nearly the whole of it was contributed by the Panjab. Of the total exports, 63·3 per cent. were sent out from the Karachi port. The external trade of Karachi under imports declined 58·5 per cent., but improved 63·8 per cent. under exports.

Imports.

The import trade fell off by 52 per cent. below last year as well as the average. The variations under the principal items are shown in the margin. The only article which showed some improvement was ghi, imported mainly from the North-West Provinces and Oudh to supply the deficit in the receipts from the Persian Gulf. Among the articles which show a decline, wheat exhibits an abnormal fall of 52 L. M., or 75 per cent. The fall under food-grains other than wheat, aggregating to over 4 L. M., or 60·6 per cent., was equally remarkable. All this contraction took place in imports from the Panjab. Failure of crops and impediments thrown in the way of shipments by the plague operations both combined to curtail the trade of all kinds of food-stuffs. Scanty crops diminished the trade of rape-seed and linseed imported from the Panjab, and brought about an aggregate reduction of 1½ L. M., or 21·7 per cent., under oil-seeds. Both the North-West Provinces and Oudh and the Panjab were responsible for the short trade under sugar (unrefined). The prevalence of plague and the low price in European markets checked the imports of hides and skins.

Exports.

5. Exports increased by 72·2 per cent. over last year and 82·3 per cent. over the average. The export trade consists chiefly of foreign merchandise distributed in Sind and up-countries through the port of Karachi. In the year under review, Karachi shared 63·2 per cent. of the total export trade. The variations in the principal commodities of the export trade are tabulated in the margin. The consuming capacity of the Panjab market having been largely reduced, all descriptions of manufactured cotton goods underwent

contraction. Scarcity raising the demand in the Panjab as well as the North-West Provinces and Oudh, the trade under food-stuffs expanded beyond previous record. The exports of food-grains other than wheat increased nearly 36 times, that is, from ½ L. M. in the last year to nearly 18 L. M. in the year under report. It is natural that in a year of famine dried fruits and nuts were sparingly consumed. The dull trade done in metals was attributed to absence of dealers on account of the plague. The decrease under stone and lime was 58 per cent. It is ascribed to ordinary trade fluctuations. Presumably, the large depression is also due to a re-action from the great activity displayed by the article during the previous year, when the trade rose by over 2½ L. M. Great demand in the up-country markets is said to have stimulated the export trade of kerosine as well as Railway plant and rolling stock. The previous five years' figures show that the rise under sugar (refined) is a continuation of the steady progress noticed last year. Cheap rate is said to have advanced the trade.

Local Trade.

6. As already noticed, local trade declined 40 per cent. below last year and 31 per cent. below the average. Of nearly 55 L. M. of the aggregate trade, Karachi imported 32½ L. M., or 59 per cent., and exported the rest. Imports into Karachi decreased by 27¾ L. M., or 46 per cent. Wheat alone is responsible for 80 per cent. (—23 L. M.) of this large fall. Plague having paralysed shipments from the port of Karachi, there was a diversion of trade in the direction of the Panjab and North-West Provinces and Oudh, the demand in both these affected provinces being very active. Imports of oil-seeds (—438,000) and cotton (—119,000) also helped the depression. The outturn of cotton was smaller, and the season for rapeseed was not good, owing to scanty rains and low inundations. To these causes was added the inactivity in the port brought on by plague. Jowar and bajri, on the other hand, showed some improvement (+3 L. M.). These millets were taken up for the requirements of Bombay. Among other articles, stone and lime (—53,000), steel rails and fish plates (—42,000), and hides, raw, (—35,000) exhibited decreases.

Exports from Karachi to Sind declined 31 per cent. Of the total fall of 10 L. M., more than two-thirds occurred under Railway plant and rolling stock. Reduced despatches of steel rails and fish plates (—2⅓ L. M.) and "other sorts" (—6⅓ L. M.) were responsible for the large decrease; but this was to some extent covered by larger exports of sleepers (+2 L. M.). The fall of 60,000 maunds under cotton, manufactured, was attributed to Indian piece-goods; the absence of dealers in cotton goods interrupted the trade during the plague. Besides these, consignments of iron and steel (—65,000), stone and lime (—65,000) and dried fruits and nuts (—26,000) show appreciable contractions.

7. The river-borne trade between Keti Bandar and Sukkur disappeared altogether. The imports from Kotri to Keti Bandar rose from 79 maunds to 1,338 maunds, while the exports from Keti Bandar to Kotri declined from 4,555 maunds to 2,819 maunds. The chief articles of trade were oil-seeds and liquors.

9. The bulk of cotton exported from Bombay as well as Karachi remained almost the same as the last year. In the case of Karachi, the shipments exceeded the imports, while in Bombay a large quantity remained in stock. The exports of wheat from Bombay were reduced to less than half, while those sent out from Karachi were only one-fifth of what they were in 1895-96. The quantities of linseed and rape-seed shipped from both the ports were considerably reduced, but the proportion of reduction in the case of Karachi was larger. The exports of til from Bombay decreased by 1,269,000 maunds, or 58·2 per cent., while those from Karachi showed an improvement of 4·7 per cent. The shipments of wool, raw, from Bombay receded 23 per cent., while those from Karachi nearly remained the same.

10. *Value rates.*—The noticeable variations took place in the rates of articles noted in the margin. The rates of hides and skins fell off, owing to larger supplies from famine-stricken tracts where there was heavy mortality among cattle. The fall in the rate of linseed is explained by less demand and large stocks of the previous year's crop. Rates of other articles rose owing to scarcity.

Road-borne Trade.

11. The road-traffic between the Native States and Sind was registered at the same "nakas" as last year at a total cost of Rs. 624.

The total trade (imports and exports) registered at these "nakas" declined from Rs. 13,90,000 to Rs. 12,57,000. The value of the imports fell off by Rs. 1,92,000, or 55 per cent. The import trade mainly consisted with Cutch, which curtailed its exports of cattle (—68,000 Rs.) and Indian piece-goods (—86,000 Rs.). The export trade improved slightly in value (5·6 per cent.). As in the case of imports, Cutch heads the list of Native States with which the export trade is carried on. The transactions with this State improved under rice, clean, (+ 4,64,000 Rs.) and cattle (+ 1,67,000 Rs.) ; but they were counterbalanced to a certain extent by decreases under paddy (—4,14,000 Rs.) and ghi (— 1,80,000 Rs.). Baroda for the first time purchased Rs. 43,000 worth of animals from Sind. The reduction under Kathiawar was also in the trade of cattle. The trade with other Native States is not very large.

Report on the Rail and River-borne trade of the Province of Sind for the year 1897-98.

2. The subjoined table compares in round numbers the quantity and value of the total trade with those of the previous year and the average for the last five years :—

Note.—Valuation of the new article "Treasure" has been excluded from this review, in order to obtain a fair comparison.

The total trade increased both in quantity and value. The volume expanded 5·9 per cent. above last year, but it was 12·7 per cent. under the average. The values advanced 11·7 per cent. above the last year and 13·2 per cent. above the average. The improvement in imports was insufficient to make up the large deficit in exports. The total external trade, therefore, decreased 4·4 and 16·8 per cent., respectively, below last year and average. The values of this description of trade, however, increased 4·4 and 14 per cent., respectively, above last year and average. This disparity between quantity and value is explained by the fact that the food-grains which recorded a large quantitative fall under exports did not show an equally rapid fall in their prices and by the expansions recorded under costlier articles, such as woollen piece-goods, wines and hides. The local trade was 27·3 per cent. above the last year, but declined 5·4 per cent. below the average. The values increased 25 per cent. above the last year in parity with the volume.

3. The following table shows the chief articles of the import and export trade of the Province. The port of Karachi took as much as 85·3 per cent. of the total imports against 76·3 per cent. of the previous year. It claimed 69·5 per cent. of the total exports against 63·3 per cent. in the previous year. As usual, nearly the whole of the external trade was with the Panjab. Imports into Karachi increased 56·9 per cent. Exports from that port, on the other hand, receded 35·9 per cent. The trade with Sind out of the port of Karachi decreased under both imports and exports.

Imports.

The import trade improved 40·3 per cent. above the last year, but was 20·7 per cent. below that of the average. The marginal table shows important variations. All these articles, except wool, contributed to the increase. As prospects in the Panjab and N.-W. P. and Oudh improved, the former more than doubled its imports of wheat into Karachi (+18¾ L. M.) and the latter resumed its usual supply (+16), which it had altogether stopped during the previous year. Sind, having a good wheat harvest at home, curtailed its imports from the Panjab (—33). The increase under food-grains other than wheat was caused by larger receipts of gram and pulse from the Panjab into both Karachi (+56) and Sind (+35) and of jowar-bajra into Karachi (+22) alone. Imports of rice, on the other hand, from that province into Sind (—17) and Karachi (—10) fell off. As the demand for millets and pulses at the port of Bombay for distribution in the affected districts continued during a part of the year, the port of Karachi attracted large stocks from the neighbouring province. The increase under oilseeds was large, due mainly to larger imports of rape and mustard from the Panjab to Karachi (+2¼ L. M). The arrivals of til (+18) also were large. Receipts of linseed (—16), on the other hand, fell off. Unrefined sugar was received in increased stocks from N.-W. P. and Oudh (+43) and the Panjab (+14). The imports of wool (raw) from the Panjab (—10) showed a small reduction. Sind imported larger quantities of ghi from N.-W. P. and Oudh (+14) in preference to the Panjab (—15).

Exports.

4. Exports decreased nearly 42 and 8 per cent., respectively, below the previous year and the average. This trade consists mainly of articles of foreign merchandise distributed through the port of Karachi to Sind, the Panjab and N.-W. P. and Oudh. As shown above, the port claimed 69·5 per cent. of the total exports. The variations in the principal articles are noted in the margin. All the cotton-goods, notably European piece-goods, were taken up in larger stocks by the Panjab.

Obviously, the purchasing power of the province must have improved with the return to prosperity. The diversion of trade in food-grains caused by the recent famine in N.-W. P. and Oudh and the Panjab was reversed in the year under report, for the returns show that the exports of wheat and jowar and bajra to these provinces dropped very low. The exports of rice, however, continued to be made on a larger scale For the large contraction of over 1 L.M. in metals, iron and steel were responsible. But comparison with the previous year's trade is not possible as the sub-heads of these metals were re-classified recently. The tendency to consume kerosine on a larger scale noticed in the last report was maintained during the year under report. A heavy fall of 16 L.M. took place under Railway plant, distributed in the sub-heads as shown in the margin.

Owing to the completion of the Southern Panjab Railway, exports of these materials from Karachi almost disappeared. Despatches from Sind were, however, somewhat larger, amounting to 67,000 maunds. Stone and lime sent out from Sind recorded a heavy shrinkage (—157) in sympathy with Railway plant. In the margin, the export of sugar (refined) is contrasted with those of the previous six years, in order to show the activity of the foreign sugar trade. The larger stocks of cheap beet sugar imported from Austria-Hungary and Germany continued to advance, and showed an increase of 50 per cent. over last year.

Local Trade.

5. It has already been noticed that the local trade improved 27·3 per cent. above the last year, but was still 5·4 per cent. below the average. Karachi imported 75 per cent., amounting to 5,258 thousand maunds, and exported the rest. Imports into Karachi expanded 20 L. M. or 61 per cent. This expansion is traced to increased imports of food-grains, chiefly wheat ($+6\frac{1}{4}$), jowar-bajra ($+9\frac{3}{4}$) and clean rice ($+6\frac{1}{10}$ L. M.). Most of the wheat and jowar-bajra were shipped to Bombay for distribution in the famine-stricken districts. These increases were, to some extent, counterbalanced by a fall of nearly 2 L. M. in transactions of til. Owing to absence of sowing rain and damage by locusts and floods, the yield of til was poor. Among other articles, stone and lime ($-\frac{3}{4}$) and "other saline substances" ($-\frac{1}{4}$ L. M.) exhibited noticeable variations.

Exports from Karachi to Sind fell 23 per cent. The depression occurred chiefly in coal and coke (—194) and materials of Railway plant (—307). Decrease under coal is accounted for by the dullness of the English coal trade. Owing to larger exports of iron and steel, metals showed an improvement of 2 L. M. Sugar (refined) recorded a rise of $\frac{1}{2}$ L. M., for the reason given under exports. Exports of unrefined sugar (gul), on the other hand, almost disappeared. Salt ($+26$), dried fruits and nuts ($+15$) and kerosine were despatched on a larger scale.

6. During the previous year, there was no river-borne import and export trade between Keti Bandar and Sukkur. During the year under review, however, 450 maunds of manufactured articles were exported to Sukkur from Keti Bandar. Import and export traffic with Kotri dwindled to insignificance, —the former from 1,338 to 35 and the latter from 2,819 to 11 maunds only.

7. The appended table compares statistics of imports into and exports abroad from the ports of Bombay and Karachi :—

The export of cotton from both the ports was reduced, but the decrease from the port of Bombay was larger in proportion to the bulk of its trade. Shipments of wheat from Bombay were only one-sixth of the imports, while Karachi exported 92 per cent. of her imports. The greater activity displayed by Karachi points to her being free from obstacles due to the plague and the plague restrictions during the year. Linseed exports were larger than the imports. The previous years' stocks on hand must have been drawn upon. The bulk of rape and mustard shipped was larger in both the ports when compared with the exports of the previous year. Transactions in til were more brisk in the port of Bombay than in Karachi. Bombay sends nearly the whole of the imported quantity of wool, while Karachi sends about half of her imports.

8. *Value rates.*—The marginally noted articles show noticeable variations, Except ginger, all the articles exhibited increase. For prices, which had risen during the last year owing to famine, continued to rise during the first half of this year. The tendency to lower prices occurred only at the end of the year under report. The price of ginger, on the other hand, went down owing partly to larger supplies from Alpai and Calicut and partly to the poorer quality of the commodity brought into the market.

Road-borne Trade.

9. The road-traffic between the Native States and Sind was registered at the same nakas as last year and at the same total cost of Rs. 624.

The total trade (imports and exports) registered at these nakas declined from Rs. 12,56,000 to Rs. 7,33,000. The fall under imports was 31 per cent. below last year. The trade was mainly with Cutch. A fall of about Rs. 40,000 occurred in imports from that State, chiefly under Indian cotton piece-goods (—18,000 Rs.) and raw cotton (—9,000 Rs.). Imports of dried fruits and nuts, brass, copper and other manufactured articles also showed small decreases. Receipts from Palanpur contracted by Rs. 11,000. European piece-goods (—6,000 Rs.) shared more than half of this fall. The export trade also receded 43 per cent. in transactions with Cutch, Baroda and Jesalmir. The trade with Cutch presented a heavy fall of Rs. 4,21,000. Consignments of rice (—3,50,000 Rs.), other than rain crops (—11,000 Rs.), cattle (—17,000 Rs.) and ghi (—15,000 Rs.) perceptibly fell off. Decrease of Rs. 38,000 in exports to Baroda was caused by absence of demand for cattle (—30,000 Rs.) and by restricted indents for horses, ponies and mules (—8,000 Rs.). Smaller exports of food-grains (—11,000 Rs.) to Jesalmir accounted for the decrease in the trade with that State. The trade with other Native States is comparatively small.

REPORT ON THE RAIL AND RIVER-BORNE TRADE OF THE PROVINCE OF SIND FOR THE YEAR 1897-98.

The appended statements relate to the Rail and River-borne Trade of the Province of Sind for the official year 1897-98. They have been compiled from the Returns furnished by the following officers:—

(*a*) The Examiner of Accounts, North-Western Railway, Lahore, who has supplied the Returns of the Import and the Local or Internal Trade by rail.

(*b*) The Assistant Conservator and Registrar, River Indus, Sukkur, by whom the Import and Export Trade of Sind with the Panjab by the River Indus is registered.

(*c*) The Examiner of Accounts, North-Western Railway, Lahore, the Examiner of Guaranteed Railway Accounts, Bombay, the Examiner of Accounts, Oudh and Rohilkhand Railway, Lucknow, and the Assistant Auditor, East-Indian Railway, Jamalpur, who have furnished the Export Trade Returns.

2. The Returns received in this office are consolidated and reviewed every quarter, and printed copies thereof are submitted to the Government of India and the Local Governments and Administrations, &c., as desired by the Government of Bombay in their Resolution No. 2129, dated 24th March 1890.

3. Appendix I shows the changes in the rates of Railway freight during the year 1897-98 as compared with the previous year.

4. Statement A contains the rates of deduction from gross weights and the average prices of articles of the Rail and River-borne Trade of Sind as well as of all the other Provinces of British India for the year 1897-98.

5. Statement I B gives a detailed account of the trade of (1) Karachi and (2) Sind (excluding Karachi) with the different Provinces. It also shows the local trade of the Province.

6. Statement II C shows the traffic between Karachi and the rest of Sind by rail during 1897-98.

7. Statement III D shows the trade between Sind and the Panjab by the River Indus during 1897-98.

8. The following changes have been made in the classification of articles of the Rail and River-borne Trade during the year under report, under instructions from the Director General of Statistics:—

(1) The three sub-heads of "Wool, manufactured,"

(*a*) Piece-Goods, European
(*b*) Do. Indian
(*c*) Shawls

have been substituted by

(*a*) Carpets and Rugs
(*b*) Piece-Goods, European
(*c*) Do. Indian
(*d*) Other sorts of manufactures.

(2) A new sub-head, *viz.*, "Mustard and Rape," has been opened under "Oils."

(3) The sub-heads of "Liquors," *viz.*,

(1) Beer, (2) Spirits and (3) Wine have also been revised as follow :—

1. Ale and Beer.
2. Spirit of all kinds, including Country Spirit.
3. Wine.
4. All other sorts, including Toddy and Fermented Liquor other than Ale and Beer.

9. The articles presenting noticeable variations in the value-rates in 1897-98, as compared with the year 1896-97, are shown in the following statement :—

Articles.	Rate per Maund.	
	1896-97.	1897-98.
	Rs. a.	Rs. a.
Turmeric	4 8	6 12
Gram and Pulse	3 10	4 7
Earthnuts	6 7	7 3
Cstor-seed	4 8	5 7
Pepper	12 12	16 4
Ginger	20 10	13 8
Chillies	7 7	11 6
Cardamoms	236 9	348 14
Sugar, refined	10 11	10 0
Sugar, unrefined	5 8	6 13
Tobacco, unmanufactured	10 10	12 2
Gold Coin and Bullion ... ... per oz. ...	69 14	65 14

10. The rise in the price of Turmeric is ascribed to short supplies.

11. The higher rate for Gram and Pulse is due to greater demand in the provinces affected by famine.

12. The increase in the prices of Earthnuts and Castor-seed is attributed to less importation on account of a bad season.

13. The price of Pepper also shows an increase, which, it is said, is due to limited stocks.

14. The fall in the price of Ginger is partly due to larger imports and partly to the inferior quality of the article brought into the market.

15. The prices of Chillies and Cardamoms have gone up owing to short crops.

16. The decline in the value-rate of Sugar, refined, is due to larger importations into Karachi by sea, whereas the higher price of the unrefined article is due to greater demand.

17. The price of Tobacco, unmanufactured, is higher than in 1896-97, owing to less importation of the article into Karachi.

18. The fall in the value-rate of Gold Coin and Bullion is ascribable to the improvement in the rate of exchange. No transactions are, however, recorded in the Returns.

19. The system of assigning values has not undergone any change, and is as follows:—

(*a*) The values of the Export and Local trade as well as those of the Import trade with Native States are taken from the rates shown in Statement A, attached, which is prepared from the quarterly Returns, and which exhibits the average rates for the whole year. These rates are obtained as follow:

The rates for foreign goods shown in the quarterly Returns are obtained from invoice values and are supplied by the Appraising Department of this Customs House, and those for Indian goods and for Railway Plant and Rolling-stock are furnished by the Director, Land Records and Agriculture, Bombay, in accordance with Government of Bombay Resolution No. 7316, dated 15th October 1890, Revenue Department.

(*b*) For Import trade from the External blocks, except Native States, the values are calculated according to the rates furnished by the officers of the exporting provinces, in accordance with the Government of India orders contained in Circular No. $\frac{45}{35\text{-}26}$ Statistics, dated 9th May 1888, Department of Revenue and Agriculture.

(*c*) The value of Cotton Piece-Goods, European, imported by railway from Bombay into the Province of Sind, is taken from the average rate, as no separate value-rates for bales and boxes are shown in the price list of that Province.

(*d*) The value of Cotton Piece-Goods, both European and Indian, carried by railway between Sind and Karachi, is also taken from the average of the rates for bales and boxes.

20. The trade has, as usual, been classed under two heads, *viz.*, (1) External and (2) Internal.

21. The first head comprises the trade with other Provinces, Native States and Chief Seaport Towns of India, which are—

I.—British Provinces.

1. Madras.
2. Bombay.
3. Bengal.
4. North-Western Provinces and Oudh.
5. Panjab.
6. Central Provinces.
7. Berar.
8. Assam.

II.—Native States.

1. Rajputana and Central India.
2. Nizam's Territory (Hyderabad).
3. Mysore.

III.—Chief Seaport Towns.

1. Madras Sea-ports.
2. Bombay.
3. Calcutta.

22. The second head includes the trade carried from one block to another within the Province of Sind.

23. In accordance with the instructions contained in Government of India letter No. $\frac{158}{57\text{-}3}$ Statistics, dated 5th June 1890, Department of Revenue and Agriculture, the traffic between Sind and the Panjab by the River Indus has been systematically registered and embodied in the Sind Returns from the official year 1890-91. As nocited in previous reports, the quarterly Returns of the Rail-borne traffic between Sind and Karachi are supplied by the Examiner of Accounts, North-Western Railway, Lahore, and those of the River-borne trade between Sind and the Panjab by the Assistant Conservator and Registrar, River Indus, Sukkur. The Indus traffic figures have, as hitherto, been classified according to the following rules, contained in paragraph 5 of the above letter :—

I. When imports by river from the Panjab exceed the imports by rail from Sukkur and Kotri into Karachi, class the latter as imports from the Panjab into Karachi and the difference as imports from the Panjab into Sind. Under trade between Sind and Karachi by rail, exclude the exports from Sukkur and Kotri to Karachi and enter the remainder.

II. When the imports by rail from Sukkur and Kotri into Karachi exceed the imports by river from the Panjab, class the latter as imports from the Panjab into Karachi and the difference, *plus* the imports from other stations in Sind to Karachi, as trade between Sind and Karachi.

III. When the exports by rail from Karachi to Sukkur and Kotri exceed the exports by river to the Panjab, class the latter as exports from Karachi to the Panjab and the difference, *plus* the exports from Karachi to Sind (excluding Sukkur and Kotri), as trade between Sind and Karachi.

IV. When the exports by river to the Panjab exceed the exports by rail from Karachi to Sukkur and Kotri, class the latter as exports from Karachi to the Panjab and the difference as exports from Sind to the Panjab. Under trade between Sind and Karachi by rail, exclude the exports from Karachi to Sukkur and Kotri and enter the remainder.

24. The total quantity and value of the Rail and River-borne Trade, both External and Internal, of the Province of Sind for the year 1897-98, excluding transactions in "Treasure" and "Animals, living," are shown in the following table, contrasted with the previous year's figures :—

Description of Trade.	1896-97.		1897-98.	
	Quantity.	Value.	Quantity.	Value.
	Mds.	Rs.	Mds.	Rs.
External. Imports ...	5,184,602	3,23,84,583	7,271,562	3,79,29,118
External. Exports ...	6,241,362	4,77,15,013	3,642,825	4,56,97,896
Total ...	11,425,964	8,00,99,596	10,914,387	8,36,27,014
Internal or Local ...	5,480,817	4,35,28,407	6,961,606	5,43,90,269
GRAND TOTAL...	16,906,781	12,36,28,003	17,875,993	13,80,17,283

25. Imports from the External blocks are above those of 1896-97 by maunds 2,086,960, or 40 per cent., value Rs. 55,14,535, or 17 per cent. The figures for 1897-98 are maunds 7,271,562, value Rs. 3,79,29,118, against maunds 5,184,602 and Rs. 3,23,84,583 of the previous year. The large difference in

the percentage of increase between the weight and value is due to the larger importation of food-grains, which are comparatively low priced.

The External Export traffic shows a decrease of maunds 2,598,537, or 42 per cent., value Rs. 20,17,117, or 4 per cent., compared with the year 1896-97, when it amounted to maunds 6,241,362, value Rs. 4,77,15,013, against maunds 3,642,825 and Rs. 4,56,97,896 in the year under report. Here, again, the difference in the percentage of weight and value is due principally to the decrease in the exports of food-grains.

26. There is an improvement of maunds 1,480,789, or 27 per cent., value Rs. 1,08,61,862, or 25 per cent., in the Local trade, which has risen from maunds 5,480,817, value Rs. 4,35,28,407, in 1896-97, to maunds 6,961,606, value Rs. 5,43,90,269, in the year under review.

I.—EXTERNAL TRADE.

IMPORTS.

27. The following statement shows the distribution of the Import traffic, exclusive of "Treasure" and "Animals, living," between the different external blocks during the year 1897-98, as compared with the preceding year :—

28. *Panjab.*—Imports from the Panjab aggregated maunds 6,760,521, value Rs. 3,39,35,687, in 1897-98, against maunds 4,828,509 and Rs. 2,96,51,661 in 1896-97, showing an improvement of maunds 1,932,012, or 40 per cent., value Rs. 42,84,026, or 14 per cent., principally in Wheat, Jowari and Bajri, Gram and Pulse, Hides, raw, Leather, manufactured, Rape, Mustard and Tilseed, Provisions, other sorts, Railway Carriages, Trucks and Materials (other sorts), Sugar, unrefined, Tea, Indian, and Tobacco, manufactured, other sorts. The trade declined in Indigo, Dyes, other sorts, Rice not in the husk, Skins, raw, Gunny Bags, Hemp and Other Fibres, Linseed, Oilseeds, other sorts, Ghi, Steel Rails and Fish Plates, Spices, other sorts, and Wool, raw.

29. *N.-W. P. and Oudh.*—An increase amounting to maunds 145,633, or 41 per cent., value Rs. 11,73,079, or 44 per cent., is noticeable in Imports from the North-Western Provinces and Oudh. The trade advanced from maunds 351,886, value Rs. 26,66,825, in 1896-97, to maunds 497,519, value Rs. 38,39,904, in 1897-98, chiefly in Wheat, Gram and Pulse, Leather, manufactured, Til or Gingelly seed, Ghi, and Sugar, unrefined. There is, however, a decrease in Gunny Bags, Brass, Wrought, Linseed, and Steel Rails and Fish Plates.

30. *Rajputana and Central India.*—The Import trade with Rajputana and Central India is more than five times in bulk and its value more than three times that of 1896-97, when it amounted to maunds 1,459, value Rs. 27,785, against maunds 7,388, Rs. 94,034, in the year under notice. The increase is due to larger imports of Ghi.

31. *Other Blocks.*—While the trade with Bengal shows a development to the extent of maunds 3,319, value Rs. 11,011, that with Calcutta (chief port) declined by maunds 389, value Rs. 4,032. Imports from the Central Provinces improved by maunds 564, value Rs. 15,771. The trade with the other external blocks is too small to call for any remark.

32. The principal articles of the Import trade which show large variations, as compared with 1896-97, are noted below :—

(a) Increase in—

1. Wheat.
2. Jowari and Bajri.
3. Gram and Pulse.
4. Hides, raw.
5. Leather, manufactured.
6. Rape and Mustard.
7. Til or Gingelly.
8. Provisions, other sorts.
9. Railway Carriages and Trucks
10. Railway Materials, other sorts
11. Sugar, unrefined.
12. Tea, Indian.

(*b*) Decrease in—

1. Indigo.
2. Dyes, other sorts.
3. Rice not in the husk.
4. Skins, raw.
5. Gunny Bags.
6. Hemp and Other Fibres.
7. Linseed.
8. Oilseeds, other sorts.
9. Ghi.
10. Steel Rails and Fish Plates.
11. Spices, other sorts.
12. Wool, raw.

33. The increase in Wheat is due to larger crops in the Panjab, the disappearance of famine, and a better demand from Europe.

34. The improvement under Jowari, Bajri, Gram and Pulse is consequent on a larger out-turn of crops in the Panjab.

35. The rise under Hides, raw, is ascribed to a better demand from European markets.

36. The larger imports of Rape, Mustard and Til seed are due to favourable crops in the Panjab.

37. The decline in Indigo and Oil seeds, other sorts, is ascribed to short crops.

38. The decrease under raw Wool is said to be due to the market being over-stocked with previous years' supplies and to larger imports from Sind.

39. The variations in other articles are ascribed to ordinary trade fluctuations.

EXPORTS.

40. The subjoined table exhibits the distribution of the Export traffic, exclusive of "Treasure" and "Living Animals," between the different external blocks during the year under report, contrasted with the year 1896-97 :—

41. *Panjab.*—Exports to the Panjab declined to the extent of maunds 2,318,964, or 40 per cent., value Rs. 12,06 194, or 3 per cent. The trade fell from maunds 5,842,741, value Rs. 4,61,14,440, in 1896-97 to maunds 3,523,777 and Rs 4,49,08,246 in 1897-98, principally in Wheat, Jowari and Bajri, Grain, other sorts, Gunny Bags, Rape and Mustard, Paper and Pasteboard, Railway Carriages, Trucks, Steel Rails, Fish Plates, Sleepers, Keys, and Materials, other sorts, Stone and Lime. In Coal and Coke, Cotton Twist, Yarn and Piece-Goods, Dyes, other sorts, Rice, Gram and Pulse, Hides, raw, Wines, Kerosine Oil, Dried Fruits and Nuts, Provisions, other sorts, Locomotive Engines, Other Saline Substances, Silk, raw and manufactured, Sugar, Wool, raw, and Woollen Piece-Goods, European, there was an improvement.

42. *N.-W. P. and Oudh.*—Exports to the Nort-Western Provinces and Oudh also show a decrease of maunds 266,496, or 69 per cent., value Rs. 7,66,586, or 50 per cent., having fallen from maunds 384,362, value Rs. 15,39,231, in 1896-97 to maunds 117,866, value Rs. 7,72,645, in 1897-98. The falling off is observable chiefly in Wheat, Jowari and Bajri, Iron and Steel manufactures, Kerosine Oil, and Sugar, unrefined. An increase is, however, noticeable in Rice, Wines, Dried Fruits and Nuts, and Sugar, refined.

43. *Rajputana and Central India.*—The Export trade with Rajputana and Central India declined by maunds 6,997, value Rs. 26,108, as compared with the year 1896-97, when it amounted to maunds 7,825, value Rs. 32,356, against maunds 828 and Rs. 6,248 in the year under review. The articles responsible for the fall are Wheat, Jowari and Bajri.

44. *Other Blocks.*—Exports to Bengal are below those of 1896-97 by maunds 6,190, value Rs. 24,607, while the trade with the seaport town, Calcutta, shows an improvement of Rs. 2,331 in value. The Export trade with Bombay has increased by Rs. 3,571. The trade with the other external blocks is insignificant and needs no notice.

45. The principal articles of the Export trade which show large fluctuations as compared with 1896-97 are noted below :—

(*a*) Increase in—

1. Coal and Coke.
2. Cotton Piece-Goods.
3. Dyes, other sorts.
4. Rice.
5. Gram and Pulse.
6. Hides, raw.
7. Wines.
8. Kerosine Oil.
9. Dried Fruits and Nuts.
10. Provisions, other sorts.
11. Locomotive Engines, &c.
12. Sugar.
13. Wool, raw.
14. Woollen Piece-Goods, European.

(*b*) Decrease in—

1. Wheat.
2. Jowari and Bajri.
3. Grain, other sorts.
4. Gunny Bags.
5. Rape and Mustard.
6. Railway Carriages and Trucks.
7. Steel Rails and Fish Plates.
8. Sleepers and Keys of Steel and Iron.
9. Railway Materials, other sorts.
10. Stone and Lime.

46. The increase in Coal and Coke is ascribed to a better Railway demand.

47. The improvement under Cotton Piece-Goods, Kerosine Oil, and Sugar is atributed to a larger demand from up-country.

48. Exports of Rice, Gram and Pulse are larger in consequence of a strong demand in the famine stricken districts in the earlier part of the year.

49. The falling off under Wheat, Jowari, Bajri and Grain, other sorts, is attributed to curtailed exports owing to the disappearance of famine.

50. The decrease in Railway Carriages, Trucks, Steel Rails, Fish Plates, Sleepers, Keys and Materials, other sorts, and Stone and Lime is attributed to a smaller demand by the Railway Department, owing to the completion of the Southern Panjab Railway.

51. The rise and fall in other articles are due to ordinary trade fluctuations.

II.—INTERNAL TRADE.

52. The total quantity of the trade carried on between the Internal blocks of the Province of Sind during the past two official years is shown in the comparative statement given below :—

Internal Blocks.	1896-97.		1897-98.	
	Imports.	Exports.	Imports.	Exports.
	Mds.	Mds.	Mds.	Mds.

Total ...	5,480,817	5,480,817	6,961,606	6,961,606

53. Imports from Sind into Karachi rose from maunds 3,259,059 in 1896-97 to maunds 5,257,925 in the year under notice. The increase, amounting to maunds 1,998,866, or 61 per cent., has occurred chiefly in Coal and Coke, Piece-Goods, European, Wheat, Rice, Jowari and Bajri, Gram and Pulse, Grain, other sorts, Skins, raw, Oilseeds, other sorts, Ghi, Dried Fruits and Nuts, Steel Rails and Fish Plates, and Wool, raw. In Cotton, raw, Drugs, other sorts, Indigo, Rice in the husk, Hides, raw, Rape, Mustard and Til seed, Locomotive Engines, Railway Carriages, Trucks and Materials, other sorts, and Stone and Lime, there is, however a decline.

54. The increase in Coal and Coke is ascribed to increased Railway traffic.

55. The rise under Wheat is due to larger crops and a good demand from Europe.

56. The improvement in other food-grains is due to favourable crops.

57. The decrease in Cotton, raw, Rape, Mustard and Til seed is attributed to short crops.

58. The falling off under Stone and Lime is ascribed to a decrease in building operations.

59. The other variations are due to ordinary trade fluctuations.

60. Exports from Karachi to Sind are less than those of 1896-97 by maunds 5,18,077, or 23 per cent. In the year 1896-97, they amounted to maunds 22,21,758 against maunds 17,03,681 in the year under report. The decline is noticeable chiefly in Coal and Coke, Jowari and Bajri, Leather, manufactured, Ghi, Provisions, other sorts, Locomotive Engines and Tenders, Railway Sleepers, Keys and Materials, other sorts, Foreign Silk, and Sugar, unrefined. There is, however, an improvement in Cotton Piece-Goods, Gram and Pulse, Gunny Bags, Kerosine Oil, Dried Fruits and Nuts, Railway Carriages and Trucks, Other Saline Substances, Salt, Cardamoms, Sugar, refined, and Woollen Piece-Goods, European.

61. The falling off under Coal and Coke, Railway Sleepers, Keys and Materials, other sorts, is due to smaller Railway demand within the Province.

62. The rise in Cotton Piece-Goods, European, and Kerosine Oil is due to lower prices and a better demand for them.

63. The improvement under Gunny Bags is attributed to an increased demand for them in the grain-producing districts.

64. The rise and fall in other articles are on account of ordinary fluctuations of trade.

III.—OTHER IMPORTANT FEATURES OF THE TRADE.

The subjoined table shows the trade of Karachi and Sind, separately, with the external blocks of the Province, contrasted with the year 1896-97 :—

Internal Blocks.	Imports.				Exports.			
	1896-97.		1897-98.		1896-97.		1897-98.

Total ...	5,184,602	100	7,271,562	100	6,241,361	100	3,642,825	100

This year, the proportion borne by the trade of Karachi to the entire trade of the Province with the different external blocks is higher than that of the previous year, both under Imports as well as Exports, by 9·03 per cent. and 6·27 per cent., respectively.

65. The following statement, prepared in accordance with the instructions contained in Government of India letter No. $\frac{150}{11\text{-}3}$ Statistics, dated 19th January 1891, and in the Director-General of Statistics letter No. 28, dated 24th January 1896, shows the principal commodities imported into Karachi and exported by sea during the year 1897-98 as compared with the preceding year :—

	1897-98.	116,867	59,013	128,660	2,918	307,458	149,325

66. On reference to the above statement, it will be seen that the exports by sea of all the principal commodities, excepting Linseed, were less than the total imports by rail, river, road and sea. If, however, the figures relating to Linseed for the last two years be added together, it will be noticed that the exports were slightly below the total imports.

67. The following statement exhibits the share taken by Sind and the Panjab in the exportation of the principal commodities by rail and river to the seaport town of Karachi during the year 1897-98 contrasted with the previous year :—

Articles.	From Sind to Karachi.		From the Panjab to Karachi.

Wool, raw	49,273	59,013	126,921	116,867

68. In exports of Til or Gingelly to Karachi, Sind has, as usual, surpassed the Panjab, but in Cotton, raw, Wheat, Mustard and Rapeseed, and Wool, raw, exports from the Panjab exceed those from Sind.

69. As compared with 1896-97, Sind supplied more Wheat and raw Wool, but less Cotton, Mustard, Rape and Til seed.

70 With the exception of Wool, raw, the Panjab contributed more under all the principal heads than in the year 1896-97.

71. The subjoined table exhibits the net weight and value of the principal articles of the River-borne trade that took the rail at Sukkur and Kotri during the year under review :—

Articles.	Net weight.		Total.	
	Sukkur Bandar and Main.	Kotri.	Weight.	Value.

Total ...	1,060,050	188,630	1,248,680	70,07,366

72. The above statement shows that the principal commodities of the River-borne traffic imported by rail from Sukkur and Kotri into Karachi for exportation by sea amounted to nearly 12½ lakhs of maunds in weight and a little over 70 lakhs of Rupees in value.

73. The Import and Export traffic, by river, between Keti Bandar and Sukkur and Kotri during the past official year is shown in the table given below :—

74. It will be seen that the volume of the trade is too small to require special notice.

75. During the year under report, the re-export trade by sea from Karachi to Keti Bandar, as shown in the Sea-borne Trade Report, did not pass beyond the limits of Sind.

76. *Treasure.*—There were no transactions in "Gold Coin and Bullion" during the year under notice. "Silver-Coin" of the value of Rs. 14,29,588 was imported and Rs. 27,25,680 exported, and the value of the total imports of "Silver Bullion" amounted to Rs. 7,07,988 and that of exports to Rs. 33,34,448.

4. The values of the Import and Export trade with each Native State during the past two years are shown in the following statement :—

5. From the above statements, it will be observed that both imports and exports show a decline of Rs. 49,410, or 31 per cent., and Rs. 4,73,584, or 43 per cent., respectively. In 1896-97, imports amounted to Rs. 1,59,784 and exports to Rs. 10,96,720, while in the year under review they are Rs. 1,10,374 and Rs. 6,23,136, respectively.

6 There has been a falling off in imports from all the Native States, except Jodhpur and Jesalmir. Cutch heads the list with a decline of Rs. 40,260, or 32 per cent.

7. With the exception of Jodhpur, all the Native States exhibit a falling off in exports. Out of a total decline of Rs. 473,584, Cutch alone shows a decrease of Rs. 421,485.

8. The Deputy Commissioner, Thar and Parkar, reports as follows :—

> "It will be observed that there is a decrease in imports and exports, which is due to prevalence of plague in Cutch and Palanpur and to the restriction imposed on arrivals from those places."

9. The subjoined statement exhibits, contrasted with the figures for 1896-97, the values of the principal and other articles imported during 1897-98:—

10. *Horses, Ponies and Mules*, imported from Cutch, show a decrease of Rs. 2,876.

11. *Cattle*, also imported from Cutch, show an improvement of Rs. 4,131. The trade rose from Rs. 33,043 in 1896-97 to Rs. 37,174 in 1897-98.

12. *Animals, other kinds*, also imported from Cutch, declined from Rs. 4,425 to Rs. 2,800, *viz.*, by Rs. 1,625.

13. *Cotton, raw.*—The trade has shrunk to less than one-third, having fallen from Rs. 14,019 in 1896-97 to Rs. 4,536 in 1897-98. The imports were entirely from Cutch.

14. *Cotton Piece-Goods (Indian).*—The trade has dwindled down from Rs. 20,506 to Rs. 1,808 only, owing to the almost entire cessation of imports of this commodity from Cutch, where the plague was raging.

15. *Fruits and Nuts (All other kinds).*—Under this head, a decrease of Rs. 3,382 has taken place, chiefly in imports from Cutch.

16. *Other Rain Crops.*—Owing to smaller imports from Jodhpur and Palanpur, the trade fell by Rs. 4,571.

17. *Brass and Copper.*—Notwithstanding an increase in imports from Jodhpur, the trade on the whole shows a diminution of Rs. 2,580, owing to restricted imports from Cutch and Palanpur.

18. *Ghi.*—There is a decline amounting to Rs. 2,697, owing to limited supplies from Jodhpur.

EXPORTS.

19. The following table compares the values of the principal and other articles of the Export trade during the years 1896-97 and 1897-98 :—

Total ...	...	10,96,720	...	6,23,136	...	— 4,73,584

20. *Horses, Ponies and Mules.*—The trade under this head has decreased by more than one-half, owing to restricted demand from Baroda and Cutch. In 1896-97, exports amounted to Rs. 22,847, while in the year under report they are only Rs. 10,392.

21. *Cattle.*—The number of cattle exported shows a decrease of 3,433 as compared with last year, principally in exports to Baroda and Cutch.

22. *Sheep and Goats.*—The decrease is due to limited demand in Cutch.

23. *Rice, husked.*—Exports under this head fell from Rs. 4,79,675 in 1896-97 to Rs. 1,31,974. The heavy decline is due to smaller exports to Cutch.

24. *Rice, unhusked.*—Larger exports to Cutch have chiefly contributed to an increase of Rs. 4,722 under this head.

25. *Other Rain Crops.*—Owing to limited exports to Cutch and Jesalmir, the trade fell from Rs. 32,196 in 1896-97 to Rs. 9,746 in 1897-98.

26. *Oils, other kinds.*—There is a decrease of Rs. 4,765, owing to Cutch having drawn a limited supply.

27. *Ghi.*—Jodhpur and Cutch are the only countries to which Ghi was exported this year. The quantity supplied is more than that of the year 1896-97 by 329 maunds, but the value shows a decline of Rs. 13,314, owing to the prices having gone down.

28. *Tilseed.*—This year, 1,125 maunds, worth Rs. 5,065, were exported to Cutch.

29. *Tobacco.*—Owing to Jodhpur having received less Tobacco, the trade fell from Rs. 7,542 in 1896-97 to Rs. 756 in 1897-98, *viz.*, by Rs. 6,786.

IMPORTS.

2. There is an increase of Indian maunds 903,290, or 31 per cent., in the volume of the Import trade. The Panjab and the North-Western Provinces and Oudh contributed Indian maunds 773,016 and 128,601, respectively, towards this increase.

3. The following are the principal items of fluctuations in the External Import trade as compared with the quarter ending 30th September 1898 :—

(1) *Articles showing an improvement.*

		I. Maunds.
Wheat	+	779,947

4. The increase is ascribed to a strong demand from Bombay.

		I. Maunds.
Jowari and Bajri	+	36,770
Gram and Pulse	+	15,347

5. Larger supplies were drawn from the Panjab to meet the demand from the Bombay and Kathiawar markets.

		I. Maunds.
Hides, raw	+	6,889

6. The increase is said to be due to a greater mortality amongst cattle in the Panjab.

		I. Maunds.
Til or Gingelly Seed	+	27,805

7. The rise is ascribed to a better demand from Europe.

		I. Maunds.
Rice in the husk	+	7,552
Grain, other sorts	+	14,321
Linseed	+	6,650
Ghi	+	4,819
Wool, raw...	+	4,871

8. The improvement is noticeable chiefly in imports from the Panjab, and is attributed to ordinary trade fluctuations.

(2) *Articles showing a decrease.*

		I. Mauuds.
Cotton, raw	—	8,630
Rape and Mustard Seed...	—	133,540
Oilseeds, other sorts	—	59,728

9. The decrease is ascribed to smaller crops.

		Ozs.
Silver Coin	—	7,872

10. The falling-off is due possibly to smaller exports of Cotton Piece-Goods, European, Iron, Wrought, Kerosine Oil, and refined Sugar.

Exports.

11. The total Export traffic with the external blocks shows an advance of Indian maunds 171,686, or 25 per cent. Exports to the Panjab rose by Indian maunds 134,695, and those to the North-Western Provinces and Oudh by Indian maunds 35,888. The increase is due to larger exports of Coal, Coke and Railway Material, general Merchandise on the whole showing a decline, for the reasons stated below.

12. The variations in the principal items of the Export trade, as compared with the second quarter of the official year 1898-99, are noted below :—

(1) *Articles in which there is an increase.*

		I. Maunds.
Jowari and Bajri	+	14,679
Gram and Pulse	+	2,102

13. The increase is probably due to a large demand for export to the districts affected by the scarcity of rain.

		I. Maunds.
Gunny Bags and Cloth	+	2,352

14. Owing to increased traffic in Grains, there was a larger demand for Gunny Bags for bagging purposes.

		Ozs.
Silver Coin	+	81,344

15. The increase is due apparently to larger purchases of Grains, Seeds, and Wool, raw.

		I. Maunds.
Coal and Coke	+	232,585
Locomotive Engines &c.	+	5,232
Steel Rails and Fish Plates	+	41,634
Railway Materials, other sorts	+	40,365

16. The increase under these heads is due to larger railway requirements.

		I. Maunds.
Cotton Twist and Yarn (European) ...	+	1,761
Cotton Piece-Goods (Indian)	+	3,318
Woollen do. (European)	+	2,920

17. The rise is due to ordinary trade fluctuations.

(2) *Articles showing a decline.*

		I. Maunds.
Cotton Piece-Goods (European) ...	—	6,767

18. The falling-off is due to a smaller up-country demand.

		I. Maunds.
Kerosine Oil	—	11,079

19. Exports decreased in consequence of a steady rise in prices.

		I. Maunds.
Iron and Steel, wrought	—	46,896

20. The decline is attributed to a smaller demand.

		I. Maunds.
Sugar, refined	—	9,292

21. The falling-off is ascribed to higher prices.

LOCAL OR INTERNAL TRADE.

22. The following statement shows the entire quantity of the Local or Internal trade of the Province of Sind during the quarter ending 30th September 1899, compared with that of the same quarter of the official year 1898-99 :—

Internal Blocks.	During the quarter ending 30th September		Increase or Decrease.
	1898.	1899.	
	I. Mds.	I. Mds.	I. Mds.
Imports into Karachi from Sind ...	1,466,126	1,454,209	— 11,917
Exports from Karachi to Sind ...	559,002	451,532	— 107,470
Total ...	2,025,128	1,905,741	— 119,387

23. The local traffic, carried both ways between the internal blocks of the Province of Sind, has fallen short of that of the second quarter of the past official year by Indian maunds 119,387, or nearly 6 per cent Both Imports into and Exports from Karachi are smaller by Indian maunds 11,917 and 107,470, respectively.

24. The chief fluctuations are noticeable in the following articles, compared with the quarter ending 30th September 1898 :—

IMPORTS INTO KARACHI.

(1) *Articles showing an increase.*

		I. Maunds.
Jowari and Bajri	+	384,539
Gram and Pulse	+	52,025

25. The increase is due to a good demand from the Bombay and Kathiawar markets.

		I. Maunds.
Hides, raw	+	36,333

26. The rise is due to a heavy mortality amongst cattle, owing to scarcity of fodder.

(2) *Articles showing a decrease.*

		I. Maunds.
Cotton, raw	—	8,965
Rape and Mustard Seed	—	124,638
Til or Gingelly Seed	—	2,654
Oilseeds, other sorts	—	70,040

27. The fall is attributed to unfavourable crops.

		I. Maunds.
Wheat	—	226,427
Wool, raw	—	2,230

28. The decrease is more than made up by increased imports from external blocks.

		Ozs.
Silver Coin	—	32,800

29. The falling-off is in consequence of a decrease in exports from Karachi to Sind.

EXPORTS FROM KARACHI.

(1) *Articles showing an increase.*

		I. Maunds.
Gunny Bags and Cloth	+	8,928

30. The rise is ascribed to increased movement of food-grains.

Steel Rails and Fish Plates	+	11,289
Sleepers and Keys of Steel and Cast Iron.	+	8,351

33. The falling-off is ascribed to higher prices ruling in the Home markets.

		I. Maunds.
Cotton Piece-Goods, European ... ... —		9,765

IMPORTS.

2. There is a heavy decline in Imports from the external blocks, due to the diversion of Panjab wheat to famine-stricken areas and to smaller crops on account of deficient rainfall. Out of the total fall of Indian maunds 1,151,806, *or 45 per cent., the Panjab alone* accounts for Indian maunds 1,067,738. As compared with the figures of the quarter ending 31st March 1899, imports from the Panjab fell off by 47 per cent., and those from the North-Western Provinces and Oudh by 28 per cent. Imports from Bengal and the Central Provinces, however, show an improvement, while those from Rajputana and Central India show a decrease.

3. The chief fluctuations in the Import trade are noted below :—

		I. Maunds.
Cotton, raw	+	59,346

4. The rise is noticeable in imports from the Panjab into Karachi, and covers the decrease in imports from the internal block.

		I. Maunds.
Wheat	—	1,244,238

5. The marked decrease is due to reduced imports from the Panjab for the reasons stated in paragraph 2.

		I. Maunds.
Jowari and Bajri	+	79,621

6. Imports from the Panjab were larger in consequence of a strong demand for export to Bombay and coast ports.

		I. Maunds.
Hides, raw	+	26,872
Skins, raw...	+	4,387

7. The increase is ascribed to the heavy mortality amongst cattle, sheep and goats on account of the scarcity of fodder.

		I. Maunds.
Ghi	+	10,884

8. Large quantities were imported to meet the local demand.

		I. Maunds.
Rape and Mustard Seed...	—	83,462
Til or Gingelly Seed	—	71,629

9. The falling-off is attributed to smaller crops in the Panjab. It follows on an increase in the corresponding quarter of 1899.

		I. Maunds.
Wool, raw...	+	11,374

10. Imports from the Panjab were greater, probably on account of a better demand from Europe.

		I. Maunds.
Oilseeds, others	+	32,917

11. The increase is due to ordinary trade fluctuations.

		Ozs.
Silver Bullion	+	119,392

12. The large increase is noticeable chiefly in imports from the town of Bombay.

Exports.

13. The Export trade shows an improvement of Indian maunds 148,287, or 22 per cent. Exports to the Panjab rose by Indian maunds 133,371, or 20 per cent., and those to the North-Western Provinces and Oudh by Indian maunds 13,750, or 60 per cent. Exports to Madras seaports also show an increase of Indian maunds 1,082, which consists entirely of dressed skins.

14. The following are the chief items of variation in the Export trade:—

		I. Maunds.
Wheat	+	6,867
Rice in the husk	+	3,710
Rice not in the husk	+	1,634
Jowari and Bajri	+	3,293
Gram and Pulse	+	3,417
Grain, others	+	1,132

15. Large supplies of grains were drawn by the Panjab owing to the prevailing scarcity in that Province, which has raised the prices.

		I. Maunds.
Gunny Bags and Cloth	—	1,310

16. Exports were less owing to a smaller demand in the interior, where only small quantities of Grains or Seeds were available for export during this quarter.

		I. Maunds.
Iron, wrought	—	14,154

17. The falling-off is due to the rise in prices both in the local and European markets.

		I. Maunds.
Iron Manufactures	+	10,636

18. The increase follows upon a decrease in the previous quarter, and has taken place mostly in exports to the Panjab.

		I. Maunds.
Sugar, refined	+	51,396
Stone and Lime	+	48,604

19. The rise occurred chiefly in exports to the Panjab, and is due to a better demand.

		I. Maunds.
Sugar, unrefined	—	9,462

20. A decrease of Indian maunds 9,486 was noticed in the preceding quarter, and the falling-off in this quarter almost amounts to the same quantity.

		I. Maunds.
Kerosine Oil	+	10,864
Railway Materials, other sorts	+	86,619

21. The improvement follows upon the decrease noticed in the corresponding quarter of the year 1898-99.

		I. Maunds.
Coal and Coke	—	114,078

Exports to the Panjab fell off from Indian maunds 118,197 in the last quarter of 1898-99 to Indian maunds 4,119 in the quarter under notice.

		I. Maunds.
Skins, raw...	+	4,392

23. The great mortality amongst sheep and other animals accounts for the large quantities of raw Skins that were exported to the Panjab.

		Ozs.
Silver Coin	+	4,36,896

24. The export from Karachi to the North-Western Provinces and Oudh was unusually large during the quarter under review.

		I. Maunds.
Cotton Twist and Yarn, European ...	+	2,970
Do. Piece Goods do. ...	+	4,042
Do. do. Indian ...	+	13,757

25. The rise is ascribed to ordinary trade fluctuations.

		Ozs.
Silver Bullion	—	9,184

26. The decrease follows upon increased exports to the Panjab during the previous quarter.

LOCAL OR INTERNAL TRADE.

27. The subjoined table compares the total quantity of the Local or Internal traffic during the quarter under report with that of the quarter ending 31st March 1899:—

Internal Blocks.	During the quarter ending 31st March		Increase or Decrease.
	1899.	1900.	
	I. Mds.	I. Mds.	I. Mds.
Imports into Karachi from Sind ...	1,587,438	2,189,992	+ 602,554
Exports from Karachi to Sind ...	561,339	445,907	— 115,432
Total ...	2,148,777	2,635,899	+ 487,122

28. The total traffic between the internal blocks of the Province of Sind shows an advance of Indian maunds 487,122, or 23 per cent. Imports into Karachi rose by Indian maunds 602,554, while exports fell by Indian maunds 115,432.

Imports into Karachi.

29. The principal fluctuations are noted below :—

		I. Maunds.
Cotton, raw	—	54,976
Rice in the husk	—	10,705
Rice not in the husk	—	131,125
Til or Gingelly Seed	—	63,550

30. The falling-off is ascribed to scanty crops, owing to low inundati and want of rain.

		I. Maunds.
Wheat	+	15,932

31. Larger quantities were imported from Sind to counterbalance the diminished supply from the Panjab, where the prices were prohibitive.

		I. Maunds.
Jowari and Bajri	+	682,776
Gram and Pulse	+	10,595

32. The increase is ascribed to a strong demand from Bombay and coast-ports, owing to the prevalence of famine.

		I. Maunds.
Hides, raw	+	18,690
Skins, raw	+	24,601

33. As noticed before in paragraph 7, the rise in imports of raw Hides and Skins is due to increased mortality among cattle, sheep, goats and other animals, owing to scarcity of fodder, especially in the Thar and Parkar District.

		I. Maunds.
Wool, raw	+	1,938

34. The increase is ascribed to a better demand from Europe.

		Ozs.
Silver Bullion	—	6,48,128

35. The decrease is due to the unusually large imports in the corresponding quarter of the preceding year.

		I. Maunds.
Drugs, other sorts	—	13,296
Dried Fruits and Nuts	+	33,093

36. The decrease in the former and the increase in the latter are attributed to ordinary trade fluctuations.

Exports from Karachi.

37. The following articles show marked fluctuations :—

		I. Maunds.
Gunny Bags and Cloth	+	10,067

38. Gunny Bags were sent in large numbers for the purpose of bagging Jowari and Bajri, which were largely imported from Sind, during this quarter.

		I. Maunds.
Iron, wrought	—	20,961

39. The decrease is due to the same cause as stated in paragraph 17 above.

		I. Maunds.
Steel Rails and Fish Plates	—	33,825
Railway Materials, other sorts	—	62,575

40. Exports are smaller, probably owing to the near completion of the Shadipalli-Balotra line and the completion of the bridge at Kotri.

		Ozs.
Silver Coin	+	22,304

41. The large quantities of Millet supplied by Sind had to be paid for with Silver Coin—hence, the increase under this head.

		Ozs.
Silver Bullion	+	775,392

42. The improvement follows upon the decrease recorded in the corresponding quarter of the year 1898-99.

		I. Maunds.
Coal and Coke	—	23,853

43. The decrease is marked, as in the case of exports to the external blocks.

		I. Maunds.
Cotton Piece Goods, Indian	+	6,632
Dried Fruits and Nuts	+	31,671

44. The increase is ascribed to ordinary trade fluctuations.

IMPORTS.

2. The volume of the Import trade with the External blocks of the Province of Sind has declined to nearly one-third of what it was in the first quarter of the official year 1899-1900. The falling-off amounts to over 40 lakhs of maunds, of which nearly 75 per cent. are due to reduced imports from the Panjab and 25 per cent. to smaller receipts from the North-Western Provinces and Oudh. Imports from the Panjab are less than half of those of the quarter ending 30th June 1899, while those from the North-Western Provinces and Oudh are only about one-sixth. The severe famine and continued absence of rain are responsible for this heavy decline.

3. The following are the principal articles of the Import trade which show marked variations as compared with the quarter ending 30th June 1899 :—

		I. Maunds.
Cotton, raw	—	17,159
Gram and Pulse	—	27,220
Til or Gingelly Seed	—	57,655

The decline is noticeable in imports from the Panjab. It is ascribed to smaller crops owing to insufficient rainfall.

		I. Maunds.
Wheat	—	3,685,924
Rape and Mustard Seed...	—	398,003

Imports were mostly from the Panjab. The decrease occurred in receipts from both the Panjab and the North-Western Provinces and Oudh, owing to the partial failure of crops for want of seasonable rain.

		I. Maunds.
Oilseeds, other sorts	+	38,897

The increase took place in imports from the Panjab, but the improvement is only nominal as the corresponding quarter of the previous year, with which the figures are compared, showed a decline of over 93,000 maunds.

		I. Maunds.
Hides, raw	+	13,524

Imports were wholly from the Panjab and although they are more than those of the corresponding quarter of the year 1899-1900, they are less than half the quantity received during the last quarter, which points to an abatement in the mortality amongst cattle in that Province.

		I. Maunds.
Ghí	+	9,675

The increase is noticeable in imports from the Panjab, the Central and the North-Western Provinces and from Rajputana and Central India.

		I. Maunds.
Sugar, unrefined	—	8,498

The decline is due to smaller receipts from the North-Western Provinces and Oudh, owing to smaller crops of Sugarcane and the prevalence of famine.

		Ozs.
Silver Bullion	+	64,288

Prices being favourable, large quantities were imported from the town of Bombay.

Exports.

4. Exports to the External blocks are below those of the quarter ending 30th June 1899 by Indian maunds 702,631 or 42 per cent. The trade with the Panjab shows a decline of 38 per cent., and is responsible for Indian maunds 578,010 of this decrease. Exports to the North-Western Provinces and Oudh are reduced to less than one-third of those of the corresponding quarter of 1899-1900, having fallen by Indian maunds 125,390. The decline is due to smaller despatches of Coal, Coke, Stone and Lime to the Panjab.

5. The principal items of fluctuations in the Export trade are noted below:—

		I. Maunds.
Cotton Piece Goods, European	—	24,748
Do. do. Indian	+	11,055

Owing to the prevailing scarcity in the Panjab, the demand for the more costly European Piece Goods declined and that for the cheaper Indian Piece Goods increased. Hence, the decrease in the former and the increase in the latter.

		I. Maunds.
Rice not in the husk	+	3,027
Jowari and Bajri	+	98,649

The increase is ascribed to a strong demand in the famine-stricken areas in the Panjab and the North-Western Provinces and Oudh.

		I. Maunds.
Coal and Coke	—	270,283
Stone and Lime	—	574,672

The large decrease under both of these heads is notable, and is chiefly responsible for the decline in the total exports to the External blocks. Exports were almost entirely to the Panjab.

		I. Maunds.
Kerosine Oil	+	15,747

The rise is ascribed to the opening of new agencies in the Panjab for the sale of bulk Oil.

		I. Maunds.
Castor Seed	+	47,337

Large quantities were despatched to the Panjab and the North-Western Provinces to meet the great demand for Castor Oil for the the use of machinery.

		I. Maunds.
Sugar, refined	+	46,000

The improvement is attributed to a better demand from up-country.

		Ozs.
Silver Coin	+	10,91,584
Silver Bullion	+	51,168

The increase is noteworthy, particularly in exports of Silver Coin to the Panjab.

LOCAL OR INTERNAL TRADE.

6. The total quantity of the Local or Internal trade of the Provnce of Sind during the quarter under report is compared in the following table with that of the first quarter of the official year 1899-1900:—

Internal Blocks.	During the quarter ending 30th June		Increase or Decrease.
	1899.	1900.	
	I. Mds.	I. Mds.	I. Mds.
Imports into Karachi from Sind ...	1,293,852	1,057,742	— 236,110
Exports from Karachi to Sind ...	501,707	343,886	— 157,821
Total ...	1,795,559	1,401,628	— 393,931

7. The Local traffic also shows a decline of Indian maunds 393,931 or 22 per cent. Both Imports into and Exports from Karachi fell by Indian maunds 236,110 and 157,821, respectively. The drought and the consequent failure of crops are responsible for the fall.

8. The chief fluctuations in the Local or Internal trade are noted below :—

IMPORTS INTO KARACHI.

		I. Maunds.
Cotton, raw	—	52,845
Wheat	—	335,354
Rice in the husk	—	8,426
Rice not in the husk	—	83,606

The decrease is ascribed to failure of crops for want of rain.

		I. Maunds.
Jowari and Bajri	+	54,358
Gram and Pulse	+	16,069

The rise is attributed to a strong demand from the famine-striken districts in the Bombay Presidency.

		I. Maunds.
Rape and Mustard	+	10,346
Til or Gingerlly Seed	+	5,757
Oil Seeds, others	+	9,778

The increase follows upon the heavy decline in the first quarter of the year 1899-1900, but the quantity is far below the normal imports.

		I. Maunds.
Provisions, other sorts	+	14,184
Stone and Lime	+	9,983

The improvement is ascribed to ordinary trade fluctuations.

EXPORTS FROM KARACHI.

		I. Maunds.
Cotton Piece Goods, European	—	10,138
Do. do. Indian	—	2,450

High prices and the prevailing scarcity prevented larger exports.

		I. Maunds.
Iron, wrought	+	7,010

The improvement follows upon a decrease in the preceding quarter.

		I. Maunds.
Steel Rails and Fish Plates	—	63,333
Sleepers and Keys of Steel and Iron ...	—	23,754
Railway Materials, other sorts	—	50,531

There is a marked decrease as compared with the first quarter of 1899-1900, when large quantities were despatched for the construction of new railway lines.

		I. Maunds.
Coal nnd Coke	—	12,180
Cocoanut Oil	+	6,204
Provisions, others	—	7,833

The rise and fall are apparently due to ordinary trade fluctuations.
